

Covestro

AT A GLANCE

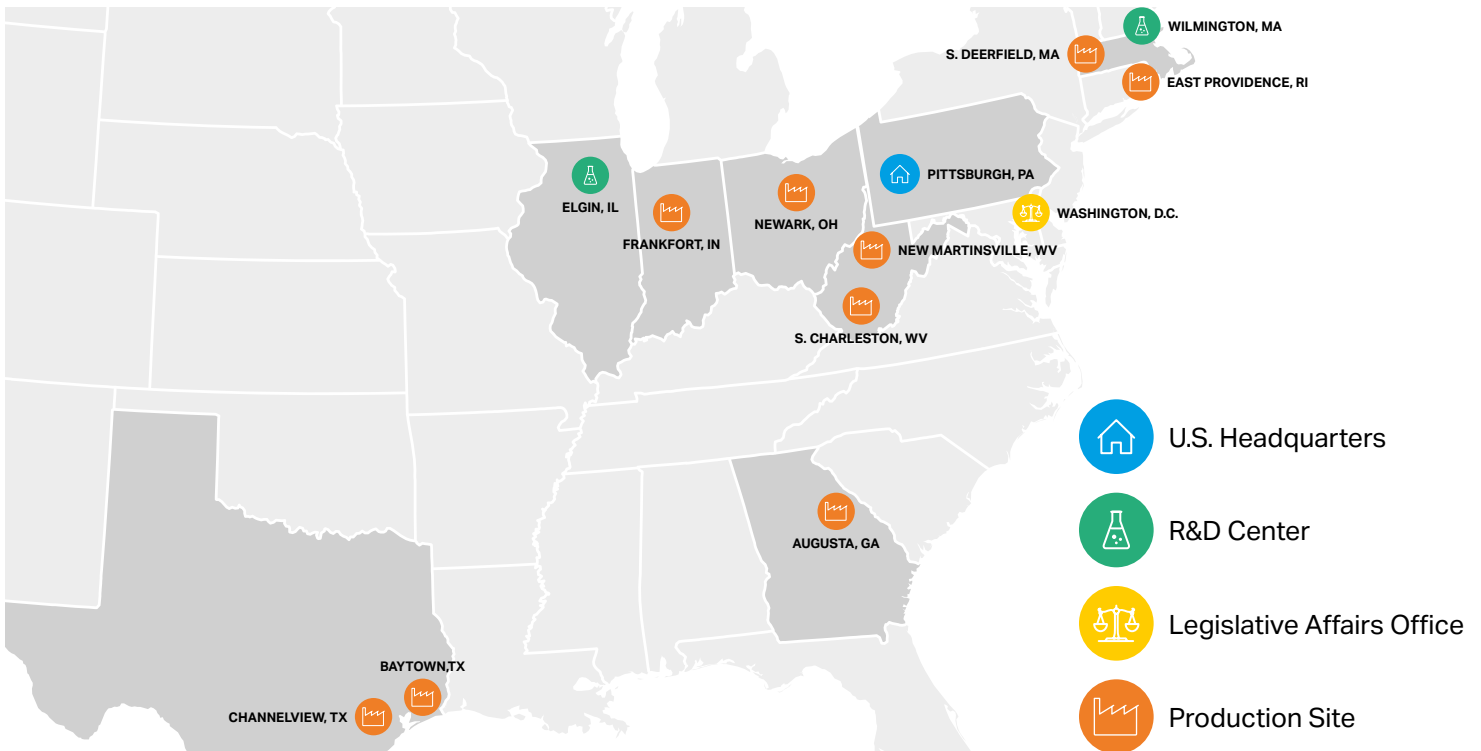

Who we are

Covestro is a global leader in developing high-tech materials that make the world a brighter place. Our innovative solutions help make cars lighter and more fuel efficient, mattresses more comfortable, electronics better protected and homes better insulated – all while driving toward a more circular economy. Our vision? To become fully circular.

Our products

Did you know? You're never more than six feet away from a Covestro product!

We produce materials that are transformed into products you use and see every day – from the adhesives holding your shoes together to the plastic casing that protects your laptop! Our diverse product portfolio spans nearly every industry, including automotive, construction, electronics, furniture, healthcare and sports.

Covestro

FRANKFORT

Our local presence

At its Frankfort, Ind., facility, Covestro produces waterborne acrylic emulsions, which are used in a variety of applications supporting the paint and coatings industry. The site embraces a culture of continuous improvement in safety, quality and production. Since hitting a production record in 2020, the Frankfort site has implemented further capacity improvements.

Giving back to our communities

Our passionate employees have countless opportunities to take their talents to the communities where we live, work and play, by helping non-profits solve business challenges, raising funds for a good cause, sharing our excitement for science with the next generation, and inspiring a cleaner future.
