Rebecca L. Lucore

Head of Sustainability and CSR for Covestro LLC

Rebecca is responsible for devising new models that apply the company's commitment to sustainable business practices and the United Nations Sustainable Development Goals (UNSDGs) to its social programs, philanthropy, community relations and sustainability initiatives. Lucore oversees i3 (ignite, imagine, innovate) Covestro's companywide CSR program that aims to spark curiosity, to envision what could be and to help create it. Its three focus areas, i3 Engage, i3 STEM and i3 Give, leverage the company's current and future workforce, the communities in which it operates, and its partners and collaborators – all to create sustainable and lasting impacts. Lucore is a leading voice in Corporate America for empowering employee purpose and creating employee-citizen-philanthropist to drive sustainable communities through the transformation of traditional corporate volunteerism to next gen Skills-Based Volunteerism (SBV). With SBV, teams of employees use their skills and expertise to help nonprofits and municipalities solve organizational challenges in IT, marketing, finance, systems, et al. These short-term consulting projects help needy organizations build capacity and become sustainable. She was instrumental in the establishment of the Covestro Center for Community Engagement at Robert Morris University in Pittsburgh which provides SBV and other volunteer training to Covestro employees and those of other companies throughout the region wishing to create their own citizen philanthropists. Lucore is working with the United Nations Global Compact (UNGC) to bring the UNSDGs to Covestro's U.S. site communities and showcase them as a framework for companies, organizations, cities and communities interested in integrating sustainable practices into their business and innovation strategies, impacting the Triple Bottom Line of People, Planet and Prosperity. Recently, Lucore took a leadership role on the UNGC's Ocean's Platform working group. Under Lucore's leadership and direction, Covestro holds its annual THINC30 Summit in Pittsburgh to bring the global goals local. THINC stands for transforming, harnessing, innovating, navigating and collaborating for a purpose-driven, sustainable future by 2030. Its mission is two-fold. First, to accelerate partnerships that foster sustainable business development and social innovation around the 17 UNSDGs. Second, to showcase how these goals can be achieved by leveraging the growing need for purpose among individuals, organizations and businesses. With the i3 Index, the public opinion research project she oversees, Covestro is exploring timely issues around purpose, sustainability, employee engagement and corporate responsibility, and helping to lead national dialogue and greater understanding of their impacts on business today and in the coming decade. Prior to joining Covestro, Lucore worked for 20 years in various capacities in corporate citizenship, philanthropy, environment/sustainability and STEM education and diversity. From 2012 to 2015 she served as Chief of Staff at Bayer MaterialScience LLC where she was responsible for leading and streamlining organizational initiatives, including talent management; donations; and community, executive and employee engagement. Before that, for more than a decade, Lucore served as Executive Director of the Bayer USA Foundation and Head of U.S. CSR for Bayer Corporation. In these dual roles, she was responsible for directing all CSR initiatives including the company's STEM education partnerships with the United Nations Environment Programme, the National Governor's Association and the National Science Teachers Association, among others, and was a lead architect of Bayer's flagship CSR program, Making Science Make Sense. Led by national spokesperson, Dr. Mae Jemison, the first woman of color to orbit the Earth, Making Science Sense was one of the first corporate initiatives to advocate for science literacy and science education reform. As part of this work, Lucore helped introduce and then drive the national conversation about the issue of gender and racial equity in the nation's STEM fields through annual research and periodic summits and reports on the issue. In recognition, Bayer was awarded two Presidential Awards – President's Service Award (President William J. Clinton) and the Ron Brown Award (President George W. Bush) – as well as the National Science Board's highest honor – the National Public Service Award. A leader in the Pittsburgh community, she was instrumental in Pittsburgh being named World Environment Day North American Host City in 2010 and host of One Young World in 2012. She is currently on the Board of Directors of Sustainable Pittsburgh, and is Advisory Board President for the Bayer Center for Nonprofit Management at Robert Morris University. She serves on several local sustainability working groups as well. Ms. Lucore has spoken widely at national CSR and

Sustainability conferences including GreenBiz, the Social Innovation Forum, CGI America, National Governor's Association, U.S. Chamber of Commerce and Conference Board. She has contributed articles on CSR, Sustainability and employee engagement issues to the Huffington Post and the US Chamber of Commerce Foundation's blog. She resides in Pittsburgh with her husband and three boys.

Grant Ervin
Chief Resilience Officer and Assistant Director for the Department of City Planning, City of Pittsburgh

Grant Ervin serves as the Chief Resilience Officer and Assistant Director for the Department of City Planning for the City of Pittsburgh. Grant oversees the integration of sustainability and resilience into City of Pittsburgh’s services, programs and policy. He works to make the City of Pittsburgh a smart, sustainable and resilient city by fostering partnerships, leveraging assets and finding creative ways to solve problems. Prior to joining the City of Pittsburgh, Grant served as the

Regional Director for 10,000 Friends of Pennsylvania, a statewide sustainable development policy organization where he focused on land use, transportation finance and infrastructure policy; and as Public Policy Manager for Pittsburgh Community Reinvestment Group (PCRG).

Mr. Ervin serves as an integrator by working across departments, agencies and sectors to formulate sustainable and resilient solutions. He brings deep experience, intersecting the worlds of environmental, energy, technology, community & economic development and infrastructure policy to create innovative and sustainable solutions for the public, private and non-governmental sectors.

Mr. Ervin has helped lead the development of a variety of innovative programs including: Pittsburgh’s ONEPGH Resilience Strategy, Pittsburgh Climate Plan, Pittsburgh’s inclusion in the Rockefeller Foundation’s 100 Resilient Cities Initiative; Bloomberg Philanthropies – American Cities Climate Challenge, Global Covenant of Mayors for Climate and Energy, United Nations Sustainable Development Goals, the United States Department of Transportation’s Smart Cities Challenge, the creation of the Uptown Eco-Innovation District, District Energy Pittsburgh, Pittsburgh and Neighborhood Community Information System and the Pennsylvania Community Transportation Initiative.

Mr. Ervin has senior management experience in energy portfolio management, the evaluation and deployment of clean technologies and renewable and district scale power procurement. Mr. Ervin speaks frequently on topics ranging from urbanism, urban resilience, organizational sustainability strategies, smart cities and climate change and cities.

Mr. Ervin is a graduate of Washington and Jefferson College and the Graduate School for Public and International Affairs and the University of Pittsburgh. He serves on the board of directors of Sustainable Pittsburgh, Eco Districts, Pittsburgh Allegheny County Thermal (PACT) and is a Fellow of the Royal Society of Arts (RSA). Mr. Ervin resides in the Morningside neighborhood of Pittsburgh with his wife and two daughters.

Zaheen Hussain
Public Policy Grad Student, Carnegie Mellon University
Former Millvale Sustainability Coordinator and Director of Sustainability at New Sun Rising

A native of Bangladesh and a Pittsburgh transplant by way of Connecticut, Zaheen is currently pursuing a Master of Science in Public Policy and Management from the Heinz College at Carnegie Mellon University.

Prior to his new student life, Zaheen served as Director of Sustainability at New Sun Rising. Working for 5 years with the Millvale Ecodistrict Collaborative and Triboro Ecodistrict as Millvale's Sustainability Coordinator, Zaheen was a shared community resource that helped advance multiple national award winning programs in the areas of food, water, energy, mobility, air quality, and equity.

Prior to his work in Millvale, Zaheen worked on various sustainability initiatives as a Project Manager at Grounded Strategies. Focusing primarily on Energy Efficiency, Zaheen helped lead the ReEnergize Pittsburgh Coalition, where he worked collaboratively to increase demand for energy efficiency services through bridging organizational partnerships and increasing community level advocacy and educational programming.

Zaheen also serves on the Boards of Directors of the Allegheny Watershed Alliance, Sustainable Pittsburgh, and the City of Bridges Community Land Trust.

[Return to Agenda](#)

Glenn Grayson Jr.
Senior Program Manager for Neighborhood Development,
Neighborhood Allies

As Senior Program Manager for Neighborhood Development, Glenn will support our efforts to advance policies and build strong community partnerships through a focused lens of equitable development, as well as support the planning, research analysis, data management, advocacy, organizing and evaluation efforts to advance the policy and program agenda of the All-In Pittsburgh Equitable Development Collaborative. His position also includes seeking solutions to accelerate and scale the efforts of community-based organizations and multi-sector collaborations to raise, leverage and absorb capital towards equitable neighborhood development initiatives, and more. Overall, Glenn's role will support internal strategies around community participation and equitable development.

Prior to joining the Neighborhood Allies team, Glenn was the Lead Community Organizer for One Pennsylvania. He brings over 10 years of community development and engagement experience to Neighborhood Allies, along with a personal passion and an unwavering commitment to improve the communities that we serve. Glenn graduated with a B.S. in Business Administration and a Concentration in Marketing from Winston-Salem State University. Glenn is happily married to Erikka Grayson and they have two beautiful children Xavier and Aniyah Grayson.
