

Validity of EcoVadis Certificate

Next Rating Cycle: 2024/2025, Availability of the (new) scorecard: Q1/2025

What is the background?

- Covestro is part of the Together for Sustainability (TfS) initiative.
- TfS is a multinational network of chemical companies, such as Evonik Industries, BASF, Bayer, Henkel.
- TfS selected EcoVadis as its CSR assessment partner to assess, promote and improve the sustainability performance of its chemical supply chains through a common infrastructure.

What does that mean exactly?

Covestro actively participates in a reassessment every three years.

The scorecard can be shared via the EcoVadis platform for the period of 12 months. After this period, active access expires as EcoVadis pursues its own business model.

Covestro's scorecard as of all TfS members remains valid for three years, even if access via the EcoVadis platform expired.
