The principal amount of the Notes, the issue currency, the interest payable in respect of the Notes, the issue prices and maturities of the Notes and all other terms and conditions which are applicable to a particular Tranche of Notes (each term as defined below, see "*General description of the Programme*") will be set out in the document containing the final terms (each "**Final Terms**") within the meaning of Art. 8(4) of the Prospectus Regulation.

This Base Prospectus has been approved by the *Luxembourg Commission de Surveillance du Secteur Financier* (the "**CSSF**") as competent authority under the Prospectus Regulation. The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and gives no undertakings as to the economic and financial soundness of the transaction or the quality or solvency of the Issuer in line with the provisions of article 6(4) of the Luxembourg act relating to prospectuses for securities (*loi relative aux prospectus pour valeurs mobilières*) dated July 16, 2019 (the "**Luxembourg Prospectus Law**"). This Base Prospectus is valid for a period of twelve months after its approval. The validity ends upon expiration of March 17, 2024.

The obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when this Base Prospectus is no longer valid.

This Base Prospectus does not constitute an offer to sell, or the solicitation of an offer to buy, the Notes in any jurisdiction where such offer or solicitation is unlawful.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") and subject to certain exceptions, the Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons.

Prospective purchasers of the Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risks and that they consider the suitability of the Notes as an investment in light of their own circumstances and financial condition. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, any U.S. person. GREEN BONDS

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply an amount equivalent to the net proceeds from the issuance of those Notes specifically for projects and activities that promote environmental purposes ("**Eligible Green Projects**"). Covestro AG has established a framework for such issuances which further specifies the eligibility criteria for such Eligible Green Projects (the "**Green Financing Framework**") based on the recommendations included in the voluntary process guidelines for issuing green bonds published by the International Capital Market Association ("**ICMA**") (the "**ICMA Green Bond Principles 2021**").

A second party opinion on the alignment of the Green Financing Framework with the ICMA Green Bond Principles 2021 has been provided by ISS Corporate Solutions, Inc. (the "**ISS Opinion**") and is available on the website of the Issuer.

Neither the Green Financing Framework nor the ISS Opinion is incorporated into or form part of this Base Prospectus. The Issuer's Green Financing Framework may be subject to review and change and may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from any description given in this Base Prospectus. The criteria and/or considerations that formed the basis of the ISS Opinion or any such other opinion or certification may change at any time and the ISS Opinion may be amended, updated, supplemented, replaced and/or withdrawn.

None of the Dealers, the Arranger, any of their respective affiliates or any other person mentioned in the Base Prospectus makes any representation as to the suitability of such Notes to fulfil environmental, social and/or sustainability criteria required by any prospective investors. The Dealers and the Arranger have not undertaken, nor are responsible for, any assessment of the Green Financing Framework or the Eligible Green Projects, any verification of whether any Eligible Green Project meets the criteria set out in the Green Financing Framework or the monitoring of the use of proceeds. In the event that any Series of Notes is listed or admitted to trading on the Luxembourg Green Exchange or any other dedicated "ESG", "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Arranger, the Dealers or any other person that such listing or admission will be obtained or maintained during the term of such Notes.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Notes may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PRIIPS REGULATION / EEA RETAIL INVESTORS

If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Where such a Prohibition of Sales to EEA Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling such Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

UK PRIIPS REGULATION / UK RETAIL INVESTORS

If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For the purposes of this provision the expression "retail investor" means a person who is one (or more) of the following: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Where such a Prohibition of Sales to UK Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

NOTICE TO CANADIAN INVESTORS

The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws. Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any supplement hereto and/or any Final Terms) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor. In relation to offers of Notes in the province of Alberta, British Columbia or Ontario only, the Dealers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

NOTIFICATION UNDER SECTION 309B(1) OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE (THE "SFA")

Unless otherwise stated in the Final Terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in the Monetary Authority of Singapore (the "**MAS**") Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

BENCHMARKS REGULATION / STATEMENT IN RELATION TO ADMINISTRATOR'S REGISTRATION

Interest amounts payable under floating rate notes issued under this Programme are calculated by reference to EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (EMMI). As at the date of this Base Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of June 8, 2016, as amended (the "**Benchmarks Regulation**").

STABILISATION

In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as stabilisation manager(s) in the applicable Final Terms (or persons acting on behalf of a stabilisation manager) may over-allot Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant stabilisation manager(s) (or person(s) acting on behalf of any stabilisation manager(s)) in accordance with all applicable laws and rules.

FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "anticipate", "believe", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "will" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Base Prospectus containing information on future earning capacity, plans and expectations regarding the Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Base Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including the Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. The Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Base Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Base Prospectus: "*Risk Factors*" and "*Description of the Issuer and the Group*". These sections include more detailed descriptions of factors that might have an impact on the Group's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Base Prospectus may not occur. In addition, neither the Issuer nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

GENERAL DESCRIPTION OF THE PROGRAMME

General

Under the Programme, Covestro AG, subject to compliance with all relevant laws, regulations and directives, may from time to time issue notes (the "**Notes**") to one or more of the following Dealers: BofA Securities Europe SA, Citigroup Global Markets Europe AG, Deutsche Bank Aktiengesellschaft, J.P. Morgan SE, Société Générale, UniCredit Bank AG and any additional Dealer appointed under the Programme from time to time by the Issuer which appointment may be for a specific issue or on an ongoing basis (together, the "**Dealers**").

Deutsche Bank Aktiengesellschaft acts as arranger in respect of the Programme (the "**Arranger**").

Deutsche Bank Aktiengesellschaft also acts as fiscal agent (the "**Fiscal Agent**") and paying agent (the "**Paying Agent**").

The aggregate principal amount of the Notes outstanding at any one time under the Programme will not exceed EUR 5,000,000,000 (or its equivalent in any other currency) (the "**Programme Amount**"). The Issuer may increase the Programme Amount in accordance with the terms of the Dealer Agreement (as defined herein) from time to time.

Prospectus

Notes issued under the Programme may be issued either: (1) pursuant to this Base Prospectus and associated Final Terms; or (2) pursuant to a Specific Prospectus (as defined below); or (3) in relation to Notes not admitted to trading on a regulated market of, any member state of the European Economic Area, in such form as agreed between the Issuer, the relevant Dealer(s) and, if relevant for the Fiscal Agent, the Fiscal Agent.

"**Specific Prospectus**" means any prospectus prepared by the Issuer in relation to Notes issued under the Programme and having terms not contemplated by the Base Prospectus as Option I or Option II, which may incorporate by reference certain parts of the Base Prospectus and which constitutes a prospectus for the purposes of Article 6 para. 3 of the Prospectus Regulation, including any documents which are from time to time incorporated by reference in the Specific Prospectus, as such Specific Prospectus is amended, supplemented or replaced from time to time.

Issues of Notes

Notes may be issued on a continuing basis to one or more of the Dealers.

The Notes issued under this Base Prospectus will be issued as fixed rate notes (the "**Fixed Rate Notes**"), non-interest bearing notes (the "**Non-interest Bearing Notes**") or floating rate notes (the "**Floating Rate Notes**").

Notes will be issued in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche (which will be completed, where necessary, with the relevant Terms and Conditions and, save in respect of the issue date, issue price, first payment of interest (if any) and nominal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be completed in the final terms.

Notes of any Tranche may be issued at a price (the "**Issue Price**") equal to their principal amount or at a discount or premium to their principal amount. The Issue Price for the Notes of any Tranche issued on a syndicated basis will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the placement of such Notes. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine the Issue Price.

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 100,000, and, if in any currency other than euro, an amount in such other currency at least equivalent to EUR 100,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

Notes will be issued with such maturities as may be agreed between the Issuer and the relevant Dealer(s), subject to such minimum or maximum maturities as may be allowed or required from time to time by any laws, regulations and directives applicable to the Issuer or the relevant currency. However, Notes will be issued with a minimum maturity of twelve months or more.

The principal amount of the Notes, the currency, the interest payable in respect of the Notes, if any, the Issue Price and maturities of the Notes which are applicable to a particular Tranche will be set out in the relevant Final Terms.

The yield for Fixed Rate Notes and Non-interest Bearing Notes will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest (if any) on a daily basis.

Each Tranche of Notes will be represented on issue by a temporary global note (each a "**Temporary Global Note**"). Interests in a Temporary Global Note will be exchangeable, in whole or in part, for interest in a permanent global note (each a "**Permanent Global Note**") on or after the date 40 days after the later of the commencement of the offering and the relevant issue date (the "**Exchange Date**"), upon certification as to non-U.S. beneficial ownership.

The Notes will be freely transferable in accordance with the rules and regulations of the relevant Clearing System.

Distribution of Notes

Notes may be distributed on a syndicated or non-syndicated basis. The Notes may only be offered to qualified investors in accordance with applicable law.

The offer and distribution of any Notes of any Tranche will be subject to selling restrictions, including those for the United States, the European Economic Area and the United Kingdom. See section "*Subscription and Sale*" below.

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" and/or "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II and/or the FCA Handbook Product Intervention and Product Governance Sourcebook is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

Listing of Notes and Admission to Trading

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be listed on the official list of the Luxembourg Stock Exchange (the "**Official List**") and to be admitted to trading on the Luxembourg Stock Exchange's regulated market "Bourse de Luxembourg", appearing on the list of regulated markets issued by the European Commission. The Luxembourg Stock Exchange's regulated market is a regulated market included on the list of regulated markets published by ESMA for the purposes of MiFID II. However, Notes may be listed on any other stock exchange, subject to the notification of the Base Prospectus in accordance with Art. 25 of the Prospectus Regulation, or may be unlisted as specified in the relevant Final Terms.

RISK FACTORS

Before deciding to purchase Notes issued under the Programme, investors should carefully review and consider the following risk factors and the other information contained in this Base Prospectus. Should one or more of the risks described below materialize, this may have a material adverse effect on the business, prospects, shareholders' equity, assets, financial position and results of operations (Vermögens-, Finanz- und Ertragslage) or general affairs of Covestro AG or the Group. Moreover, if any of these risks occur, the market value of Notes issued under the Programme and the likelihood that the Issuer will be in a position to fulfil its payment obligations under Notes issued under the Programme may decrease, in which case the holders of Notes (the "Noteholders") issued under the Programme could lose all or part of their investments. Factors which the Issuer believes may be material for the purpose of assessing the risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the Issuer may be unable to pay interest, principal or other amounts on or in connection with Notes issued under the Programme for other unknown reasons than those described below. Additional risks of which the Issuer is not presently aware could also affect the business operations of Covestro AG or the Group and have a material adverse effect on their business activities, financial condition and results of operations. Prospective investors should read the detailed information set out elsewhere in this Base Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

The following risk factors are organized in categories depending on their respective nature. In each category the most material risk factors, based on the probability of their occurrence and the expected magnitude of their negative impact, are mentioned first.

Words and expressions defined in the Terms and Conditions shall have the same meanings in this section.

RISK FACTORS RELATING TO THE ISSUER AND THE GROUP

The risk factors relating to the Issuer and the Group are presented in categories depending on their nature with the most material risk factor presented first in each category:

Market Risks

The Group is affected by volatile economic conditions and the development of its customers' cyclical end markets.

General economic conditions affect the polymer industry, including the Performance Materials and the Solutions & Specialities segments in which the Group operates. Due to the Group's significant fixed cost base, a decrease in sales volume could have a material adverse impact on the Group's results of operations. If gross domestic product ("GDP") declines, the Group typically experiences a greater decline in sales. The Group's results of operations are substantially dependent on regional economic conditions in Europe, the Middle East, Africa and Latin America excluding Mexico ("EMLA"), Asia and the Pacific ("APAC"), and the United States, Canada and Mexico ("NA") and in certain emerging economies that are generally more volatile than developed markets.

Uncertain global economic factors and changes in GDP growth in key countries make it difficult for the Group to forecast demand trends for its products and its profitability. It can be difficult to accurately predict the development of factors affecting the industry segments. In particular, the recent military actions against Ukraine (the "**Russia-Ukraine War**") and the sanctions and export-control measures instituted in response have contributed and will likely continue to contribute to increased inflationary pressures (including increased prices for oil and natural gas), gas supply shortages, supply chain disruptions, market volatility and economic uncertainty, particularly in Europe. In June 2022, the World Bank warned that the Russia-Ukraine War had magnified the slowdown in the global economy triggered by the pandemic of coronavirus disease 2019 ("**COVID-19**") caused by SARS-CoV-2 and predicted that the global economy was entering what could become a protracted period of low growth and elevated inflation in which, for many countries, economic recession will likely be difficult to avoid. Meanwhile, inflation rates have recently increased significantly in Europe and the United States. Further increases in inflation rates and actions taken by central banks and other state actors to combat rising inflation rates, such as recent increases in base interest rates by the United States Federal Reserve and the European Central Bank, could, among other effects, undermine further economic growth, and contribute to regional or global economic recessions, cause declines in consumer spending and confidence and increase borrowing costs.

Furthermore, the Group is highly dependent on demand in the end markets in which the Group's customers operate, in particular the automotive/transport, construction, wood/furniture, electrical/electronics and chemicals end markets, which together account for a majority of the Group's total sales. A smaller portion of the Group's total sales are attributable to sales in the sports/leisure, cosmetics, health and other end markets. Since the Group's business is characterized by high fixed costs, any

material decline in demand in one of the Group's core end markets that results in falling production volumes will decrease the Group's earnings.

The Group's end markets are cyclical in nature; however, the level of cyclicity differs by end market and region. The level of activity in the Group's end markets is generally affected by economic developments (including GDP growth and disposable income) as well as a wide range of other factors beyond the control of the Group and its customers.

Customers of chemical and polymer companies such as the Group typically adapt their procurement activities to the expected growth rates in their relevant end market. In an actual or expected economic downturn, customers try to reduce their working capital and their inventories, which can lead to a significant decline in the Group's sales volumes and sales. In times of recovery, customers tend to increase their inventories, leading to increased demand for the Group's products.

Future market developments, including expected sales and results of operations, are difficult to forecast because of the cyclical nature of the end markets and other factors beyond the Group's control. Furthermore, the Group's results of operations are highly correlated with volume, prices, raw material and energy costs as well as production capacity utilization within the Performance Materials and the Solutions & Specialities segments of the polymer industry and of its production facilities, all of which are difficult to project and could materially adversely affect the Group's ability to predict future financial results and plan capital expenditures accurately.

Adverse economic conditions or a decline in demand in any of the Group's end markets, even during periods of strong general economic conditions, may materially adversely affect the Group's business, financial condition, results of operations and prospects.

The polymer industry is characterized by periods of supply/demand imbalances due to production overcapacity that will result in periodic downward pressure on prices and short-term price volatility.

Historically, the markets for most of the Group's products have experienced alternating periods of tight supply, causing prices and profit margins to increase, followed by periods of significant capacity additions, resulting in oversupply and declining prices and profit margins. The cycles often occur on short notice and are in part caused by the capacity additions of new world-scale production facilities or the expansion of existing production facilities, which are necessary to create or sustain economies of scale, and the decline of industry-wide utilization rates that often follows capacity additions.

Any oversupply may lead to a decline in capacity utilization rates of the entire industry and, in particular, the Group, which may negatively impact profit margins due to the high fixed cost base of production facilities. The materially adverse effects of supply and demand imbalances can be significantly exacerbated by economic conditions.

The Group expects that competitors from developed as well as emerging economies will continue to add production capacity. In addition, the Group has planned to increase its production of certain products in the short term.

Moreover, the construction of new production facilities, or the expansion of capacity at existing production facilities, often begins years in advance of that capacity entering operation. Accordingly, there is a risk that such new capacity eventually enters operation when economic conditions are weak which may further depress prices and profit margins. The materially adverse effects of supply and demand imbalances can be significantly exacerbated by economic conditions.

In addition, other factors largely beyond the Group's control, such as the actual or perceived changes in levels of supply and demand, the availability and cost of substitute materials and inventory maintained by competitors, all influence product prices and may lead to short-term price volatility and a downward pressure on prices, which may ultimately decrease the Group's margins. Levels of supply in the industry segments that outpace demand for products, such as those produced by the Group, can materially adversely affect the Group's ability to generate profit and materially adversely affect the Group's business, financial condition, results of operations and prospects.

Fluctuations in the prices of raw materials or energy and any disruptions in the supply or logistic chain could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Group's production processes are dependent on the availability and timely delivery of raw materials and such materials constitute a large proportion of the Group's total production costs. The Group's primary raw materials are petrochemical derivatives, such as benzene, phenol, propylene oxide, toluene and acetone as well as hexamethylenediamine ("HDA").

The extent of the impact of price fluctuations in raw materials on the Group's sales and results of operations depends primarily on whether the Group is able to pass on increases in raw material prices to its customers through higher selling prices without significant delays or to maintain its selling prices despite decreases in raw material prices. The Group's ability to do so primarily depends on the conditions of supply and demand in the industry and resulting industry capacity utilization as well as competition. Oversupply and low utilization of the production capacity in the industry have affected and will continue to affect the Group's ability to pass on increases in raw material prices to its customers, which negatively affects the Group's margins.

As the Group's primary raw materials are petrochemical derivatives, their prices are typically determined based on the price of crude oil, which generally creates the floor for prices of petrochemical derivatives, and the supply and demand dynamics for the relevant raw material.

In addition to raw materials, the Group requires large quantities of energy from various sources for use in its production operations, the most important of which are electricity, natural gas and steam. The Group's energy costs are affected by various factors, including the availability of supplies of particular sources of energy, energy prices and regulatory decisions. The competitiveness of the Group's production facilities in EMLA, APAC and NA depend on whether the Group has access to energy at competitive rates. Any significant increase in energy prices, transportation costs, grid fees or taxes associated with the supply of energy would increase the Group's operating costs and, thus, may negatively affect its results of operations if it is unable to pass the increased costs on to customers. Any interruption or shortage of energy supply may materially adversely affect the Group's business.

In addition to ordinary fluctuations in supply and demand, political instability, wars or other international conflicts, geopolitical tensions and uncertainties can significantly affect the supply of oil, other raw materials as well as energy, potentially resulting in a significant increase in prices. In particular, the Russia-Ukraine War, the related economic sanctions and export controls imposed on Russia and certain Russian companies and individuals, as well as related countermeasures adopted by the governments of Russia or other jurisdictions, have led to increased bottlenecks in global supply chains, shortages of raw materials, parts and components as well as price volatility for raw materials more generally. In particular, the Russia-Ukraine War has caused and may continue to cause volatility in oil and natural gas prices and could potentially lead to shortages of these resources. Further disruption to global energy markets resulted from bottlenecks in the transport of liquefied natural gas. The resulting energy supply crisis affected regions differently, with undersupply in EMLA and oversupply in NA. This led to cross-importing of energy intensive finished goods (like chemicals) between regions, which negatively impacts the ability to pass-through costs to customers in certain regions. In addition, it is expected that the energy prices, especially for gas and electricity, will stay higher than pre-conflict levels for the coming years. Depending on developments in the Russia-Ukraine War, the risk of potential gas shortages may materialize.

The continuous nature of the Group's production processes, the desire to keep inventories at a minimum and the difficulty of storing hazardous, gaseous, bulky and/or packed materials increase the importance of a well-functioning supply and logistics chain. Any significant disruptions in the Group's logistics chain that transports its raw materials and certain of its by-products within the integrated production platforms is likely to result in production interruptions, a loss of customers, damage claims and significant downstream consequences. If certain of the Group's suppliers or logistics partners are unable or unwilling to meet their contractual obligations under existing agreements, the Group may be forced to pay higher prices to obtain the necessary raw materials from other sources and it may not be able to increase prices for its products to offset the higher raw materials costs. Shortages or disruptions in the supply of energy or raw materials could result in planned or unplanned production interruptions at the Group's facilities, which could have a material adverse effect on the Group's business.

If certain raw materials become unavailable within a geographic region from which they are currently sourced, then the Group may not be able to obtain suitable or cost-effective substitutes. The inability to obtain suitable or cost-effective raw materials may require the Group to close certain production operations, entire production facilities or product lines, which in turn may result in a shortfall in the Group's production of certain chemical intermediates and by-products that it consumes internally. In consequence, the Group may be required to purchase such substances from third parties at a significantly higher cost or close certain other production operations. Certain customers of the Group may depend on the Group's products and may seek an alternative supplier or hold the Group liable for its inability to supply its products at agreed quantities and times.

Each of the factors and risks described above could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Business Risks

Production at the Group's facilities may be subject to planned and unplanned production interruptions, which could have a material impact on its ability to produce products for sale or maintain business operations and therefore, may materially adversely affect its business.

The Group operates multiple and complex technical processes, which may be subject to breakdowns, inefficiencies, operational human errors, sabotage and technical failures that may interrupt production operations or delay a resumption of production following a plant modification or a turnaround. Any material disruption at any of the Group's production facilities, in particular the Group's facilities with large production capacity, could impair its ability to use its facilities, have a material impact on its ability to produce products for sale or maintain business operations.

Production disruptions may be caused by several factors including natural disasters, weather, severe pandemic/epidemic, supply disruptions - particularly from sole-source suppliers or the unanticipated unavailability of one of the Group's reusable

by-products - strikes, transportation interruption, government regulation, political unrest or terrorism, or internal reasons, such as fires, equipment failure, unplanned maintenance, operational human errors or other production problems.

Disruptions at one or more of the Group's production facilities, at any of the production facilities of neighbouring suppliers or at the Group's owned and operated infrastructure, may also interrupt production further up or down the production chain and lead to a decrease in volumes and sales, potential loss of customers and damage claims by customers. Adequate spare parts and maintenance services may not be available in a timely manner to secure the continuation of operations. If disruptions occur, alternative facilities with sufficient capacity or capabilities may not be available (or may be located in another region), may be characterized by substantially higher costs or may take significant time to start production. Moreover, long-term production disruptions may cause the Group's customers to seek alternative sources of supply, which could exacerbate any adverse effects experienced by the Group. Material disruptions at any of the Group's production facilities could materially adversely affect the Group's business, financial condition, results of operations and prospects.

While the Group has defined operation recovery plans that are intended to allow it to recover from natural disasters or other events that could disrupt its operations, it cannot provide assurances that its plans would fully protect it from all such disasters or events. In addition, insurance may not adequately compensate the Group from any losses incurred as a result of natural or other disasters. In areas prone to frequent natural or other disasters, insurance may become increasingly expensive or not available at all. Any failure to ensure continuous production, due to failures in planning or due to unforeseen events, could result in a loss of business and customers and materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group is likely to incur costs in connection with the construction, modernization, maintenance, repair or expansion of production facilities, which may prove more costly than budgeted, require a longer shut down period and ultimately may lead to production capacity constraints.

Production facilities and infrastructure require a significant amount of investment to maintain, repair, modernize and expand. The Group has dedicated and will continue to dedicate appropriate expenditures to the maintenance of its production facilities.

Scheduled maintenance and intermittent repairs may disrupt production processes and interfere with the ordinary operation of production facilities and infrastructure. Investments relating to scheduled maintenance and intermittent repairs may prove more costly than budgeted or require longer shut down periods than planned which may ultimately lead to production capacity constraints. At times external contractors of the Group need to perform maintenance or repairs at the Group's facilities or infrastructure may not be available or may only be available with reduced resources. In addition, costs anticipated in connection with the maintenance of the Group's facilities or infrastructure may significantly increase at production facilities that operate at high capacity utilization levels for extended periods of time.

The mechanisms the Group uses to manage the risk of delays and cost overruns may prove insufficient. Any unanticipated costs in connection with the construction, modernization, maintenance, repair or expansion of production facilities may have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

There can be no assurance that the Group will be able to keep, obtain, renew or maintain all necessary licenses, certificates, approvals and permits for its operations.

The Group, including its production facilities, infrastructure, products and waste disposal, is subject to various licenses, certificates, approvals and permits in different foreign jurisdictions. There can be no assurance that the Group will be able to keep, obtain, renew or maintain its licenses, certificates, approvals and permits upon their expiration. In addition, licenses, certificates, approvals and permits currently held by the Group may be challenged in court by third parties. The introduction of any new and/or more stringent laws, regulations, or requirements to obtain licenses, certificates, approvals and permits relevant to the Group's business operations may cause the Group to incur significant additional investment and maintenance costs to fulfil new regulatory requirements or may preclude it from continuing with its existing operation at some or all of its production facilities or may limit or prohibit it from expanding its business. In addition, relevant regulatory authorities may not grant licenses, certificates, approvals and permits as quickly as anticipated, which may result in project delays or the Group's production facilities laying idle for significant periods of time.

The Group's inability to keep, obtain, renew or maintain all necessary licenses, certificates, approvals and permits needed for its operations could materially adversely affect the Group's business, financial condition, results of operations and prospects.

With limited exceptions, the Group generally does not have long-term agreements with its customers, and the loss of a significant number of customers could materially adversely affect its sales and profitability.

The Group generally does not have long-term agreements with its customers and customers may choose to obtain products similar to those produced by the Group from the Group's competitors at short notice. Customers have consolidated their operations in certain geographic areas and any other consolidation of a customer's operations from one region to another may

result in the loss of that customer. In addition, significant levels of customer consolidation may enable customers to exert substantial pricing pressure on the Group. The negative effects set out above may be amplified in those regions where the Group is required to pay for raw materials due to long-term supply agreements with defined volumes or, in exceptional cases, with take-or-pay obligations despite the change in customer demand. If, as a result, demand for the Group's products declines, it may be required to decrease its production volumes while being unable to reduce raw material purchases accordingly, which could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group's production processes and operations are subject to the inherent hazards and other risks associated with chemical processing, production, storage, and transportation.

The Group's production processes and operations are subject to the hazards and risks associated with chemical processing, production and the related storage and transportation by the Group or its subcontractors. The Group's production processes rely on hazardous substances such as chlorine, phosgene, carbon monoxide, phenol, ethylene oxide, propylene oxide, isocyanates and the corresponding amines, which can present major risks to the health and safety of workers, neighbouring populations and the environment. Other potential hazards associated with chemical production and operations include accidents, explosions, fires, inclement weather, transport risks, terrorist attacks, natural disasters, mechanical failure, transportation interruptions, remediation, pipeline leaks and ruptures, storage tank leaks, chemical spills, discharges or releases of toxic or hazardous substances or gases and other risks. These hazards could expose workers, suppliers, the community and others to toxic chemicals and other hazards, contaminate property and the environment, damage property, result in personal injury or death, lead to an interruption, relocation or suspension of operations and materially adversely affect the productivity and profitability of a particular production facility or the Group's business operations as a whole, and result in governmental enforcement, regulatory shutdowns, the imposition of government fines and penalties and claims brought by governmental entities or third parties. The occurrence of any such event, which is not entirely preventable despite the application of a high standard of care, could be seriously detrimental to the Group's reputation and harm the Group's ability to obtain or maintain its existing licenses or its key commercial, regulatory, and governmental relationships. In addition, the Group uses contractors, over whom the Group has little control, who may perform duties on behalf of the Group in a manner that may cause harm to the health and safety of other workers, neighbouring populations and the environment. The costs associated with any of these events may be substantial and could exceed or otherwise not be covered by the Group's insurance coverage.

Each of these scenarios could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Any failure to successfully develop new, improved, or more cost-effective materials, production processes and technologies, or delays in development, may lead to the Group's products becoming superseded and could reduce the Group's future sales and profitability.

The Group depends on its continued ability to develop new, improved, or more cost-effective materials for end market applications, methods of production, technologies, and to successfully commercialize and distribute products.

The trend towards commoditization and standardization in major parts of the Group's industry segments has increased the importance of research and development in supporting profitability, particularly in terms of cost-efficient production technologies. Furthermore, the Group must offer ever more specialized or better performance products that are intended to offer higher value to customers while managing production costs in order to achieve satisfactory margins.

The Group may be unable to develop new methods or technologies to gain additional efficiencies in its production processes in the future, and its products may not perform as well as anticipated, which may decrease the profitability of some or all of the Group's products. If the Group's competitors develop better and more cost-efficient production technologies, the value of the Group's proprietary production technologies and its competitiveness in the market could be significantly reduced. The Group's ability to compete effectively also depends to a significant extent on its continuous ability to manage its cost base and its competitors may be more successful than it is in achieving or maintaining a competitive cost base by lowering their production costs.

The Group may also not be successful in expanding or improving its product portfolio, may lack the expertise or financial resources to develop new products or may fail to ensure the recyclability of the end product made out of its raw materials. In addition, competitors may develop new materials or applications with more favourable properties or which comply more effectively with government regulations for content, ingredients/composition or production, or may improve existing products in a similar manner. Competitors may also develop materials with similar characteristics that can be produced at lower costs relative to the Group. Further, the risk of technological substitution of the use of products, which the Group currently provides, by other products provided by competitors could have a material adverse effect on the Group's business. If the Group is unable to provide end market relevant products or to otherwise maintain its competitive position, it may lose customers to its competitors. The Group expects that its competitors will continue to develop and introduce new and enhanced products, which

could cause a decline in customer acceptance of the Group's products. An inability to compete effectively could have a material adverse effect on its business, financial condition, result of operations and prospects.

The Group may commit errors or misjudgements in its planning and misallocate resources, for instance, by developing materials, methods or technologies that require large investments in research and development and capital expenditure but that are not commercially viable. Any failure to successfully develop new, improved, or more cost-effective materials, production processes and technologies, or delays in development may lead to the Group's products or technologies becoming outdated, which could cause impairments and could reduce the Group's future sales. Any material failures in the Group's research and development processes could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group's growth strategy contemplates business integrations and/or future acquisitions and divestments that the Group may not execute successfully.

The Group continuously evaluates opportunities for growth and change. These initiatives may involve making acquisitions, entering into partnerships, divesting assets and creating new financial structures—any of which could require a significant investment and subject it to new kinds of risks. The Group's failure to timely and effectively integrate and develop past and future acquisitions may materially adversely affect its results. If expected synergies are not fully realized, commitments are imposed or restructurings or integrations are more costly than initially anticipated, this may result in lower than expected results of operations and impaired goodwill. Anticipated synergies may not materialize and liabilities that are unknown at the time of the acquisition may also materialize and as a result the purchase price may later prove to have been too high. Acquisitions, in particular, may expose the Group to liabilities that are unknown at the time of the acquisition and which the Group may be unable to settle effectively such as legacy tax claims, claims from former employees and claims for breach of contract. In addition, the acquired company may not perform according to the Group's expectations or may fail. The Group may incur indebtedness to finance future initiatives. It could also issue additional shares of the Group or its subsidiaries to finance such initiatives. If the Group's strategies for growth and change are not successful, it could face increased financial pressure, such as increased cash flow demands, reduced liquidity and diminished access to financial markets and the equity value of its businesses could be diluted.

Although the Group's current and expected liquidity needs are covered in the medium term, the Group may require additional financial resources to fund any strategy for growth in the medium to long-term, which may be difficult to obtain, or may result in higher costs and additional covenants.

The implementation of strategies for growth and change may create additional risks for the Group, including problems with effective integration of operations or separation of divested assets, diversion of management time and attention away from existing operations, requiring capital investment that could otherwise be used for the operation and growth of its existing businesses, disruptions to important business relationships, increased operating costs, usage of limited investment and other baskets under its debt covenants, difficulties due to lack of or limited prior experience in any new markets it may enter and difficulties in realizing projected efficiencies, synergies and cost savings, which could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The benefits that Covestro AG may realise from the integration of the Resins & Functional Materials business could be materially different from the Group's expectations.

On April 1, 2021, the Issuer acquired the Resins & Functional Materials ("**RFM**") business from Koninklijke DSM N.V. for a purchase price of EUR 1.54 billion (the "**RFM Acquisition**"). With the acquisition of RFM, the Issuer added a range of water-based polyacrylate resins and expanded its technology portfolio to include water-based hybrid technologies, powder coating resins as well as radiation curing resins.

In the assessment of the Issuer, the integration of RFM is a substantial strategic growth opportunity to expand revenues of the Solutions & Specialties segment of the Group. Furthermore, the Issuer is expanding its global production network by more than 20 sites. The Issuer expects permanent synergy effects to build-up to about EUR 120 million EBITDA *per annum* by the fiscal year 2025. These consist of approximately two-thirds of cost synergies and one-third of revenue synergies and are expected to be generated amongst others through the alignment of purchasing, sales and administrative structures in the integrated business as well as cross-selling and the joint development of new high-performance products.

Although the Issuer was able to inspect and review internal documents of Koninklijke DSM N.V. related to RFM and speak to key employees of the company in preparation of the acquisition process (customary due diligence for a transaction of this type and size), there can be no guarantee that the Issuer had access to all relevant information at the time of the investment decision. The valuation of RFM and the determination of the purchase price were based on certain assumptions and the information available to the Issuer at the time and it cannot be ruled out that these assessments prove to be erroneous or incorrect.

As a result, the RFM Acquisition involves a number of risks, including, but not limited to:

- significant impairment charges;
- unexpected losses of key employees of RFM;
- mitigating contingent and/or assumed liabilities;
- possible loss of customers and/or other business partners.

The Issuer may not be able to realise the anticipated synergies, future earnings, transfer of know-how or other benefits that it intends to achieve from the RFM Acquisition. The Issuer cannot guarantee that the acquisition will yield benefits that are sufficient to justify the expenses the Group has incurred.

The realization of one or more of the above factors could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group may fail to realize anticipated benefits from joint ventures and may be unable to exit a joint venture in a timely manner or without penalty.

The Group has entered into, and may continue to enter into, joint ventures for a variety of reasons including to gain access to end markets, relevant know-how or raw materials on preferential terms.

In some cases, the relevant partners provide or may provide a major portion of the capital investment for a project and/or provide raw or other materials, real estate, or other services. In the corresponding agreements, the Group may agree with the joint venture partners or the joint ventures to provide raw or other materials or to perform certain services for the project. If the Group fails to fulfil, or if a partner alleges that the Group failed to fulfil, its obligations under these contracts, either in whole or in part, the consequences may be claims for damages, contractual penalties, or termination of the joint venture by the partner or by the joint venture.

The success of a joint venture requires that the respective partners constructively pursue the same goals and may therefore be jeopardized or impaired due to a deadlock with or a breach of contract by, a partner, the joint venture, or through other unforeseen events. The Group may lack sufficient control over, and information regarding, its joint venture partners and must, to a certain extent, rely on their integrity. This is especially true for joint ventures in regions where the Group is a new entrant. Illegal or unethical activities by the joint venture partner may have negative consequences for the Group's reputation and may result in legal disputes, fines or other adverse consequences. In addition, technology and know-how may also be revealed or required to be revealed to joint venture partners and, particularly in countries with comparatively less stringent intellectual property protection, these partners may use this technology and know-how for their own purposes outside the scope of the venture. Non-competition and exclusivity undertakings in joint venture agreements may prevent the Group from rendering services or producing, marketing and distributing the relevant products for its own account in certain areas. Moreover, the Group may not be able to exit a joint venture in a timely manner, on acceptable terms, or at all, and such an action may be subject to the written approval of the joint venture partner, the Group's acquiring full ownership of the joint venture or rights of first offer.

To the extent such joint venture has been consolidated in the past, the Group may not be able to deconsolidate the joint venture. In the event of the loss of a joint venture partner, the Group may be required to make a compensation payment to such partner, and considerable resources may need to be invested in a new partnership. Alternatively, the Group may decide to exit a particular venture, in which case it may not be able to recover the investments it has made. In addition, conflicts with its partners or the failure of one of its joint ventures or joint undertakings could lead to the loss of the respective investment or financial penalties and prevent the Group from implementing its strategy. In many cases, joint venture agreements are subject to foreign laws, the effects of which are in some instances difficult to predict. Potential disputes with joint venture partners may fall under the jurisdiction of foreign courts or arbitral tribunals, which might lead to unforeseen obstacles or results.

The realization of one or more of the above factors could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Legal Risks

Regulatory requirements to reduce emissions of greenhouse gases could have an adverse effect on the Group's results of operations.

Globally, the Group's operations are increasingly subject to regulations that seek to reduce emissions of greenhouse gases ("GHGs"), such as carbon dioxide and methane and laughing gas (N₂O), which may be contributing to changes in the earth's climate.

Regulatory actions may increase the Group's operating costs. Some European production facilities are required to participate in the European trading scheme for GHGs. Currently, the Group is facing increasing cost for certificates. The Group anticipates that price increases of carbon dioxide certificates within the EU's trading system for GHGs will lead to an increase in operating costs (especially for steam and power consumption), which could materially adversely affect the Group. In addition, there is an expectation of national (German) measures for climate protection focussed on the transformation of the energy supply system. This may lead to increasing operating costs. Finally, China has gained experience from seven regional cap-and-trade programs and is developing a national system based on its experiences. To the extent that these cap-and-trade programmes impose compliance obligations upon the Group's operations, they may increase the Group's operating costs.

Additional future regulation of GHGs could occur pursuant to future international treaty obligations, regulatory changes under national or local law in multiple jurisdictions or regional adoption of GHG regulatory schemes, or any combination of the foregoing or otherwise. Potential consequences of such regulations include capital costs to modify operations as necessary to meet GHG emission limits and additional energy costs, as well as direct compliance costs. Currently, however, it is not possible to estimate the likely financial impact of potential future regulation on any of the Group's production facilities, its products or its business.

Regulatory requirements to reduce emissions of GHGs could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group may inadvertently infringe on the intellectual property rights of third parties and could be required to pay substantial damages and/or be enjoined from using or selling the infringing products or technology.

The Group continually seeks to improve its business processes and to develop new production technologies and new products and applications. Many of its competitors have a substantial amount of intellectual property that the Group must continually strive to avoid infringing. Although it is the Group's policy and intention not to infringe valid patents of which it is aware, the Group cannot provide assurances that its processes and products and other activities do not and will not infringe issued patents (whether present or future) or other intellectual property rights belonging to others relating to existing and especially to new business activities such as the circular economy or the internet of things. The Group could be liable for infringement of intellectual property rights of third parties or could experience supply and production restrictions and disruptions as a result of actual or alleged infringements of intellectual property rights. The Group may also be subject to indemnity claims by its customers and business partners arising out of claims of their alleged infringement of the patents, trademarks and other intellectual property rights of third parties in connection with their use of the Group's products.

The Group may have to obtain third-party licenses to gain access to technology, which could entail considerable costs. The Group may be unable to acquire licenses that it will need for its future business with the appropriate scope, under acceptable conditions or at all. In addition, licenses the Group currently holds or has the prospect to hold in the context of its LOT (License on Transfer) Network membership may not prove successful or continue to be effective, and the Group may be prevented from making or marketing products.

Intellectual property litigation often is expensive and time-consuming, regardless of the merits of any claim, and the Group's involvement in such litigation could divert its management's attention from operating its business. Moreover, if the Group is sued for infringement and loses, the Group could be required to pay substantial damages and/or be enjoined from using or selling the infringing products or technology. Furthermore, a lost infringement suit may damage the Group's reputation and image.

Failure to avoid infringement of the intellectual property held by third parties or disputes related to intellectual property could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group's failure to protect its intellectual property and other proprietary information, to validly acquire the same from its present or former employees and cooperation partners in the past and potentially in the future, to retain key know-how carrying employees or to prevent IP misappropriation may materially adversely affect its business.

The Group's success depends to a significant degree upon its ability to protect, preserve and enforce its intellectual property and other proprietary information. However, the Group may be unable to prevent third parties from using its intellectual property and other proprietary information without its authorization or independently developing intellectual property that is similar to or competes with the Group's, particularly in those countries where the laws do not protect proprietary rights to the same degree as in Germany, the European Union or the United States. Any inability by the Group to effectively prevent the unauthorized use of its intellectual property and other proprietary information by others could reduce or eliminate any competitive advantage it has developed, cause it to lose sales or otherwise harm its business. If it becomes necessary for the Group to initiate litigation to protect its proprietary rights, any proceedings could be burdensome and costly, and the Group may not prevail.

It is possible that the Group's present or former employees' and cooperation partners' intellectual property rights may not have been validly claimed by the Group. Present or former employees and cooperation partners that could continue to hold rights to their intellectual property may demand the registration of intellectual property rights solely in their name and may also claim damages. In such cases, the Group may not be able to use the relevant intellectual property because the inventor(s) may obtain an injunction prohibiting use. Furthermore, it is also possible that current or former employees may have claims to inventor remuneration or that cooperation partners have claims to compensation payments that must be fulfilled or that have not been completely fulfilled. In addition, it is possible that cooperation partners may have claims with respect to inventions made within the scope of cooperation.

Key inventors or know-how carrying employees may choose to leave the Group with little or no time for adequate know-how transfer and may share their knowledge with their new employers to build competitive IP. On rare occasions, single employees may misappropriate IP and share IP with customers, suppliers or even competitors without authorization.

The realization of any of these risks or the failure of the Group to protect its processes, product know-how, apparatuses, technology, trade secrets or proprietary know-how or the failure of adequate legal remedies for related actions could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group's international presence, complex group structure, competitive environment and large customer accounts create risks of illegal business practices and it must rely on a compliance system to prevent irregularities in its business activities.

The Group's significant global footprint across APAC, EMLA and NA, its competitive environment and number of customer accounts create risks of illegal business practices, which could lead to sanctions from national or supranational authorities such as the European Commission, reputational damage or other risks. Furthermore, the Group's operations are located across many countries, and its size and complex group structure may lead to inefficiencies, inconsistent application of Group wide compliance and management standards and inadequate or delayed internal reporting to Covestro AG as publicly listed company. Although the Group maintains a compliance program—including a compliance management system—throughout the Group to mitigate legal compliance risks such as corruption, breaches of foreign trade law or violations of antitrust laws, violations of the relevant laws and regulations may result in criminal or civil sanctions, including material monetary fines, penalties and other costs against the Group or its employees, and may have a material adverse effect on its business.

A compliance program is expensive to operate and maintain, and may prevent the Group from acting as rapidly as it otherwise could in pursuit of potentially profitable business opportunities or entering into some ventures. In addition, the complexities of such a program may require certain processes that are not completed in accordance with an imposed time frame and, therefore, lead the Group to forgo certain beneficial opportunities.

These risks, if they materialize, could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Legal and regulatory changes in the jurisdictions in which it operates and trades may have an adverse effect on the Group.

Due to the international nature of its business, the Group must comply with, and is affected by, a large number of different legal and regulatory frameworks, including tax laws. There is a risk that changes in these frameworks may materially adversely affect the Group's legal and regulatory environment. The risks faced by the Group include, but are not limited to:

- foreign currency control regulations and other regulations related to exchange rates and foreign currencies (such as the abandonment of exchange rate pegs);
- changes in laws and regulations, in particular related to environment, health and safety;
- measures to counter foreign trade imbalances such as foreign direct investment controls and export controls;
- restrictions on the ability to repatriate funds from subsidiaries;
- restrictions on the ability to own or operate subsidiaries or acquire new businesses in certain countries, including rules on local ownership of businesses;
- differences in legal and administrative systems, which could lead to insufficient protection of intellectual property, impair the Group's ability to enforce contracts or jeopardize its ability to collect accounts receivable and other claims outstanding;
- nationalizations; and
- imposition of withholding or other taxes and transfer pricing regulations.

The materialization of any of these risks could severely impact the Group's sourcing, sales, production operations and logistics, could lead to a loss of customers and access to customers, know-how and tangible and intangible property, and could have material adverse effects on its business, financial condition, results of operations and prospects.

The costs of complying with changing environmental, health and safety regulatory requirements could negatively impact the Group's financial results.

The Group uses large quantities of hazardous substances, generates hazardous wastes and emits wastewater and air pollutants in its production operations. Consequently, its operations are subject to extensive environmental, health and safety ("EHS") laws, regulations, rules and ordinances at the supranational, national and local level in multiple jurisdictions across APAC, EMLA and NA. EHS regulations apply to most of the Group's activities and the Group must dedicate substantial resources to complying with them. The Group's cost of compliance with EHS regulations is part of its operating cost and, ultimately, must be covered by the prices at which the Group is able to sell its products.

In addition, the Group's suppliers are subject to EHS regulations that may impact their ability to supply the Group with the raw materials it needs. The inability to obtain certain raw materials may require the Group to close certain production operations, entire production facilities or product lines. The Group's products are also used in a variety of end markets such as automotive/transport, construction, electrical/electronics and furniture that have specific regulatory requirements such as those relating to human safety or recycling that may impact the demand for the Group's products in those end markets.

Many EHS regulations have become more stringent over time and the trend is likely to continue, especially as societal concerns regarding the safe use of chemicals and their products in commerce, as well as their potential impact on health and the environment are likely to manifest themselves in more stringent regulatory intervention. Several countries in which the Group operates have instituted EHS regulations attempting to increase the protection and security of chemical plants, which could result in higher operating costs. In addition, many EHS regulations require the Group to hold operating permits for its production facilities, which are subject to periodic renewal and, in circumstances of noncompliance, may be subject to operating restrictions, revocation or fines. The necessary permits may not be issued or continue in effect, and any issued permits may contain more stringent limitations that restrict the Group's operations or that require further expenditures to meet additional requirements imposed by permits.

Compliance with more stringent EHS regulations will likely increase the Group's operating costs including costs related to the transportation and storage of raw materials and finished products, as well as the costs of storage and disposal of waste. The Group's capital expenditures and costs relating to the implementation of EHS regulations will fluctuate due to factors that are out of the Group's control, such as the timing of the promulgation and enforcement of specific standards which impose requirements on the Group's operations. Capital expenditures and costs beyond those currently anticipated may therefore be required under existing or future EHS regulations. Accordingly, EHS regulations may cause the Group to incur significant unanticipated losses, costs or liabilities, which could reduce its profitability. In addition, laws and regulations may be newly imposed or amended on short notice, becoming more stringent in a short period of time. The Group may incur substantial costs, including penalties, fines, damages, criminal or civil sanctions and remediation costs, experience interruptions in its operations, or be required to cease operations in certain locations for failure to comply with these laws or permit requirements.

Changes in EHS regulations in jurisdictions where the Group produces and sells its products could also lead to a decrease in demand for its products. Concerns about product safety and environmental protection could influence public perception of the Group's products and operations, the viability of some or all of its products, its reputation, and the ability to attract and retain employees. Further to regulatory changes, health and safety concerns could increase the costs incurred by the Group's customers to use its products and otherwise limit the use of the Group's products, which could lead to decreased demand for these products. Such a decrease in demand would have a materially adverse effect on the Group's business, financial condition, results of operations and prospects.

Given the diversification and global operations of the Group's business, there is an elevated risk that the Group may not comply with all applicable laws, regulations or permits in all the jurisdictions in which it operates. The significant number of EHS regulations differs across jurisdictions and results in a complex regulatory environment with which the Group must continually comply.

Moreover, even if the Group is in compliance with regulatory and permit requirements, the actions or regulatory non-compliance of other companies may lead to industry-wide investigations by regulatory authorities that could interrupt some or all of the Group's production operations for significant periods. The costs of complying with changing EHS regulations and the liabilities including penalties, fines, damages, criminal or civil sanctions and remediation costs the Group may incur for failing to adequately comply with applicable EHS regulations could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group may be subject to losses due to liabilities or lawsuits related to contaminated land that it owns or operates or arising out of environmental damage or personal injuries associated with exposure to chemicals, the release of chemicals or other hazardous substances.

Many of the Group's sites have an extensive history of industrial operations, storage and related activities and some of the Group's buildings have in the past contained and may still contain asbestos or other harmful substances. In addition, the Group owns a large number of industrial sites containing, in some cases, pre-existing contamination requiring securing or remediation and the associated costs often cannot be estimated. The Group has been and is likely in the future to be liable for the costs of investigating and cleaning up or stabilising environmental contamination on or from its properties or at off-site locations where it transported, disposed of or arranged for the disposal or treatment of hazardous materials and waste or from disposal activities that predated its purchase of its businesses. The Group may therefore incur additional costs and expenditures beyond those currently anticipated to address all such known and unknown situations under existing and future EHS regulations. In some countries in which the Group operates, the Group may also be exposed to claims for damages, penalties, operating restrictions or the revocation of permits to operate its sites.

In addition, exposure to chemicals or other hazardous substances associated with the Group's operations or products could give rise to personal injury claims. The Group is subject to numerous laws in the national and local jurisdictions in which it operates relating to the management of workplace risks associated with highly hazardous chemicals. Failure to comply with such laws could subject the Group to both civil and criminal penalties, which could affect its product sales, reputation and profitability. The Group may be subject to claims with respect to workplace exposure, workers' compensation and other health and safety matters.

The environmental liabilities at any particular production facility could increase as a result of, among other things, changes in laws and regulations, modifications to the site's investigation and remediation plans, unanticipated construction problems, identification of additional areas or quantities of contamination, increases in labour, equipment and technology costs, significant changes in the financial condition of the Group or other responsible parties and the outcome of any related legal and administrative proceedings to which the Group may become a party. The Group was previously a subgroup of the German multinational chemical and pharmaceutical company Bayer AG (together with its consolidated subsidiaries, the "**Bayer Group**"). Any increase in liability may be found to be outside the scope of the indemnity provided by the Bayer Group to the Group in the agreements related to the Group's separation from the Bayer Group (the "**Separation**"), resulting in increased costs payable by the Group. It is not possible for the Group to reasonably estimate the amount and timing of all future expenditures related to environmental or other contingent matters. Accruals for environmental matters are recorded by the Group when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies.

Liabilities or lawsuits related to contaminated land that the Group owns or operates or arising out of environmental damage or personal injuries associated with exposure to chemicals and the release of chemicals or other hazardous substances may materially adversely affect the Group's business, reputation, financial condition, results of operations and prospects.

The Group is exposed to litigation and other legal and regulatory actions and risks in the course of its business.

With its international operations, the Group is exposed to numerous legal and regulatory risks. These may include, *inter alia*, risks relating to product liability, competition and antitrust laws, export control, data protection, intellectual property laws, tax legislation and environmental protection in the countries where the Group operates. The Group is involved in legal, regulatory, governmental and arbitration proceedings and may become involved in additional proceedings in the future. These proceedings involve claims by and against the Group which arise in the ordinary course of its business, including in connection with its business activities or its role as employer, investor and taxpayer. The outcome of current pending or future proceedings and investigations cannot be predicted with certainty. Legal or regulatory judgements or agreed settlements may give rise to significant losses, costs and expenses which are not covered, or not fully covered, by insurance benefits or provisions. Such losses, costs and expenses may have a material adverse impact on the business and financial position of the Group.

Investigations of possible legal or regulatory violations, such as potential infringements of antitrust law, may result in civil or criminal penalties – including substantial monetary fines – or other adverse financial consequences, and may materially adversely affect the Group's business, reputation, financial condition, results of operations and prospects.

The Group may be liable for damages based on product liability claims brought against it or its customers or may be accused of having sold harmful products.

Many of the Group's products provide critical performance attributes to customers' products, which are in turn sold to consumers. If a product fails to perform in a manner consistent with quality specifications, a customer could seek replacement of the product or damages for costs incurred as a result of the product failing to perform as designed and marketed. The sale of these products may also give rise to product liability claims or other claims based on damage caused by the Group's products.

If a consumer were to bring a product liability claim with respect to a product that contains the Group's products, the Group could be named as a defendant in that claim or could become subject to separate litigation brought by one of its customers. A successful claim or series of claims against the Group could cause reputational harm and could result in a loss of customers.

In addition, the Group's product portfolio contains some substances that are harmful to human health. Other products of the Group that are not currently considered harmful to human health may be discovered to be harmful to human health in the future, which could lead to liability claims. In addition, the Group's products, once integrated into consumer end products, may also be found to be harmful as medical knowledge about health risks related to exposure evolves. Any allegation of harm caused by a product of the Group may significantly negatively affect the Group's reputation. Any threatened or actual future claims for damages based on product liability could significantly harm the Group's reputation and, in turn, could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Financial Risks

Increased obligations and expenses related to the Group's post-employment benefit plans could negatively affect the Group's financial condition and results of operations.

The Group has obligations to current and former employees related to pensions and other post-employment benefits in Germany and a number of other countries. Changes in relevant measurement parameters such as interest rates, mortality and salary increase rates may raise the present value of the Group's pension obligations. This may lead to increased costs in connection with the Group's pension plans, diminish equity due to the recognition of actuarial losses or put pressure on the Group's credit rating. A large proportion of the Group's pension and other post-employment benefit obligations are covered by plan assets including fixed income securities, shares, real estate and other investments. Declining or even negative returns on these investments may adversely affect the future fair value of plan assets.

Both of these effects may negatively impact the development of equity, and may require additional payments by the Group. Also, future changes in certain legal environments, especially in local regulation, may in the future have negative effects on the Group's results and may also trigger the necessity for additional payments by the Group.

Changes in foreign exchange rates could have material adverse effects on the Group's results of operations.

Foreign currency risks for the Group result from exchange rate changes of financial and operational booked exposure (including receivables and payables) as well as from planned operational exposure. The exposures include raw materials and/or the sales of products priced in other currencies than the functional currency of the operating subsidiary. Unfavourable exchange rates may lead to higher costs or lower sales than expected at the time of signing the contract and may reduce margins.

The Group's reporting currency is the Euro. However, the Group conducts its business in a large number of countries across the globe and in several international currencies. In terms of the Group's results of operations, the U.S. dollar and the Chinese renminbi are the most important foreign currencies. Any change in exchange rates between foreign currencies and the Euro affects the Group's reported results of operations and assets and liabilities when the results of those subsidiaries are translated into Euro for reporting purposes. Unfavourable fluctuations in the values of the currencies in which the Group's international subsidiaries' financial statements are prepared against the Euro could have a material negative impact on the Group's future consolidated financial statements.

The exposure to exchange rate volatility could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The terms of the Group's existing debt financings as well as credit market conditions, changes in interest rates and declines in credit ratings may restrict the Group's financial and operational flexibility.

Some of the financing agreements the Group has entered into with banks, other financial institutions or other creditors contain restrictions, undertakings, warranties, limitations as to further financing, covenants and definitions of events of default that may reduce the Group's financial and operational flexibility. Through cross-default clauses, the breach of covenants or other obligations of one or more financing agreements may lead to a default under other financing agreements. Any such restrictions contained in the Group's financing arrangements could also have a material adverse effect on its ability to react to changes in its business environment and its ability to incur additional debt to fund future liquidity requirements or re-financing. If the Group cannot meet its repayment obligations, it may have to pursue financial restructuring, which may be achieved only at increased cost or not at all and could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Interest rate fluctuations could increase the interest expense on any outstanding floating interest debt of the Group, the cost of new financing and the valuation of the Group's defined benefit obligations. Furthermore, a downgrade in the ratings of the

Group or the debt securities of the Group could result in increased interest and other financial expenses related to future borrowings of the Group and could restrict the Group's access to additional capital or financing.

The Group may be forced to make write-downs, valuation allowances or additional impairments on its asset base that reduce the value of the Group.

The Group is active in an industry that requires significant investments in its long-lived assets, in particular, its production facilities. Recognition and measurement on the Group's asset base, pre-tax and post-tax, requires judgement and estimates by management as to their recoverability in accordance with generally accepted accounting principles. Any asset, current or noncurrent, tangible, intangible or tax, associated with the Group's operations and recorded on the balance sheet, make the Group susceptible to write-downs, valuation allowances or impairments. Significant negative industry or economic trends, disruptions to business, unexpected significant changes or planned changes in the use of the assets, divestitures and sustained market capitalization declines may, in particular, result in recognition of impairments to goodwill or other long-lived assets. Accordingly, any write-downs, valuation allowances or impairments considered by management or mandated by required law and regulations could materially adversely affect the Group's reportable pre-tax or post-tax performance, financial condition, results of operations, and/or prospects.

The Group's business is subject to many operational risks for which it may not be adequately insured.

The Group believes that Covestro AG and its subsidiaries have reasonable insurance protection, to the extent customary in the industry. However, such insurance does not cover all risks associated with the operation of its business that could potentially lead to interruptions of its business operations or to it incurring significant costs, or with its production processes and the related use, storage and transportation of hazardous and non-hazardous raw materials, products and wastes in or from its production facilities or its distribution centres. In addition, the Group is exposed to legal liabilities such as environmental and product liability which may also not be fully covered by insurance. While the Group has purchased what it deems to be insurance coverage customary in the industry, such coverage is subject to limitations or exclusions, deductible and maximum limits of insurance.

The realization of any such risk not or not fully covered by insurance could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The amount of debt that the Group has incurred could materially adversely affect the Group's business.

Due to the amount of debt that the Group has incurred, the Group may be required to use a substantial portion of its cash flow from operations to make interest payments, which in turn reduces the cash flow available to fund capital expenditures and other corporate purposes and to grow the Group's business. As a consequence, the Group's vulnerability to generally adverse economic and industry conditions as well as the risk of a future downgrade of the Group's ratings could increase. Further, future debt costs could increase and limit at the same time the future availability of debt financing, limiting the Group's ability to borrow additional funds as needed or take advantage of business opportunities as they arise. This could also limit the Group's flexibility in planning for, or reacting to, changes in the Group's business and the industry. The Group could consequently be placed at a competitive disadvantage to the Group's competitors that may not be as highly leveraged.

In addition, the Group's actual cash requirements in the future may be greater than expected. The Group's cash flow from operations may not be sufficient to repay all of the outstanding debt, and the Group may not be able to borrow money, sell assets or otherwise raise funds on acceptable terms, or at all, to refinance the debt.

The amount of debt that the Group has incurred may limit the flexibility of the Group to respond to future events and could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Tax Risks

The Group's tax burden could increase, in particular, as a result of tax audits, reassessments by the competent authorities and potential changes in applicable tax laws.

As an international group operating in multiple jurisdictions, the Group is subject to laws and regulations on tax levies and other charges or contributions in many countries throughout the world, which often do not provide clear-cut or definitive guidance. The tax charge included in the financial statements is the Group's best estimate of the due tax. There is a degree of uncertainty regarding the final tax liability for any period until completion of tax audits by the relevant authorities.

In connection with the Separation, the Group is responsible for and has also agreed to indemnify certain companies of the Bayer Group in relation to certain potential tax liabilities, in particular arising from risks relating to transfer pricing adjustments and the unintended maintenance of permanent establishments, each in connection with activities of the previous MaterialScience business.

Reassessments of taxes, changes to tax laws, rules and regulations, including changes in the interpretation or implementation of tax laws, rules and regulations by domestic or foreign governmental bodies, could affect the Group in substantial and unpredictable ways. Such reassessments and changes could subject the Group to additional compliance costs and tax liabilities, which could materially adversely affect the Group's business, financial condition, results of operations and prospects.

The Group operates in a significant number of jurisdictions, which contributes to the volatility of its effective tax rate. Changes in tax laws or the interpretation of tax laws in the jurisdictions in which it operates may affect its effective tax rate. National and international adverse tax developments could thus materially adversely affect the Group's business, financial condition, results of operations and prospects.

Other Risks

The Group relies on the proper functioning of its computer and data processing systems and a larger-scale malfunction could result in material disruptions to its business.

The Group relies primarily on globally and locally functioning information technology systems across its operations, including for management, supply chain and financial information and various other processes and transactions. A comprehensive, long-term IT service outage, so that no user is able to access the Group's network or the central ERP platform, could materially disrupt the Group's operations, cause material delays or cancellations of customer orders or impede the production or shipment of products, processing of transactions or reporting of financial results. A severe outage of a de-central production control system in a major site could lead to an interruption of the related production process, which could have a material impact on the Group's business. A cyber-attack on or other problems with the Group's systems could also lead to the disclosure of proprietary information about its business or confidential information concerning its customers or employees, which could result in significant damage to its business and its reputation.

While the Group has put in place measures designed to ensure proper functioning of its information technology systems, it cannot provide assurances that its measures would fully protect it against all of the significant risks to its information technology systems. Failure to implement these measures could materially adversely affect the Group's business, financial condition, results of operations and prospects.

If the Group is unable to sell, store, re-utilize or dispose of certain raw materials and by-products that it produces or acquires from third parties, it may be required to limit or reduce its overall production levels and could also be materially adversely affected if the prices at which the Group sells certain raw materials and by-products decline.

The Group's operations are dependent on its ability to sell, store, re-utilize or otherwise dispose of certain raw materials and by-products of the Group's production processes such as styrene monomers, caustic soda and hydrochloric acid. To a large extent, the Group either sells the by-products resulting from one production step or uses them in the production of further individual products, often at the same location, by using an integrated production structure or disposes of them. Cost efficient operations of many of the Group's production facilities are dependent in part on the sales price or the costs in connection with disposing of the by-products, including the availability of waste water disposal facilities as well as waste incinerators, and on the re-utilization levels thereof. The inventory expense related to storing hazardous and bulky materials, such as certain raw materials and the Group's by-products may be significant. Such inventories may ultimately become obsolete or decline in value, thereby adversely affecting the Group's earnings.

There can be no assurance that the Group will be able to sell, store, re-utilize or dispose of raw materials or by-products in the future. In addition, the Group may have historically had the ability to sell such raw materials or by-products at prices that may not be available in the future which may result in a decline in the Group's sales. The Group's ability to sell raw materials and by-products and the prices at which the Group is able to sell them can have a material impact on the Group's sales. The demand and prices for some of these raw materials and by-products, in particular styrene monomers, have historically been volatile and may continue to be volatile, which may affect the Group's results of operations. In the event that the Group is unable to sell such by-products, it may be required to reduce its production levels at all or some of its production facilities, invest in new treatment processes or incur substantial costs in connection with disposing of these by-products, which may have a material adverse effect on its business, financial condition, results of operations and prospects.

With the sale of its by-products, Covestro AG depends on other product markets which can develop differently than the markets for the Group's main products, such as the polystyrene market for styrene monomer or the PVC market regarding HCl. For example, if demand for by-products declines while the growth for the Group's main products increases, the Group could be forced to find alternative ways to dispose of the by-products, which could entail greater investments or operating costs.

The Group's reputation is one of its key assets and if it is harmed, the Group's business and results of operations may suffer.

The Group is exposed to the risk of negative publicity, press speculation and potential or actual legal proceedings concerning its business, which may harm its reputation and may result in administrative fines and damage claims. The development of a negative social perception for the chemical industry in general or the processes or products of the Group in particular could also have a negative impact on the reputation and financials of the Group. The incorrect use and handling of the Group's products by third parties can also harm the Group's reputation and financials. The Group has implemented a code of conduct, which is aimed to govern the conduct of its own employees and operations, and a supplier code of conduct, which sets the Group's expectations for its suppliers. The code is derived from the principles of the UN Global Compact and the Group's corporate commitment on human rights, and requires that the Group's suppliers comply with environmental regulations, occupational health and safety rules, and the overarching respect for human rights, including the avoidance of child labor or forced labor in any form. The Group's cross-departmental Human Rights Task Force, which was established in the year 2020, operates under the guidance of the Global Human Rights Officer and is responsible for fully integrating human rights requirements into the Group's activities. The overarching management approach is based on the UN's Guiding Principles on Business and Human Rights, the core elements of the German Act on Corporate Due Diligence Obligations for the Prevention of Human Rights Violations in Supply Chains (*Lieferkettensorgfaltspflichtengesetz*), which entered into force on January 1, 2023, and other applicable legislations. However, violations of the Group's code of conduct or its supplier code of conduct cannot be excluded and may harm the Group's reputation. In addition, concerns about product safety and environmental protection could influence public perceptions regarding the Group's products and operations, the viability of certain products, its reputation, and the ability to attract and retain employees. Any significant damage to the Group's reputation could cause existing customers to terminate their relationship with the Group or prevent it from winning new contracts. Such general concerns may also lead to the increased scrutiny of authorities and more restrictive legislation.

Any of these negative effects could materially adversely affect the Group's business, financial condition, results of operations and prospects.

RISK FACTORS RELATING TO THE NOTES

The risk factors relating to the Notes are presented in categories depending on their nature with the most material risk factor presented first in each category:

Risks related to the nature of the Notes

Noteholders are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments.

Any person who purchases the Notes is relying on the creditworthiness of the Issuer and has no rights against any other person. Noteholders are subject to the risk of a partial or total failure of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Notes. The worse the creditworthiness of the Issuer, the higher the risk of loss (see also "*Risk Factors relating to the Issuer and the Group*" above). A materialization of the credit risk may result in partial or total failure of the Issuer to make interest and/or redemption payments under the Notes.

In addition, even if the likelihood that the Issuer will be in a position to fully perform all obligations under the Notes when they fall due actually has not decreased, market participants could nevertheless be of that opinion. Market participants may in particular be of such opinion if market participants' assessment of the creditworthiness of corporate debtors in general or debtors operating in the industries sector adversely change. If any of these risks occur, third parties would only be willing to purchase the Notes for a lower price than before the materialization of said risk. The market value of the Notes may therefore decrease.

The Notes will be effectively subordinated to the Group's debt to the extent such debt is secured by assets that are not also securing the Notes.

Although the Terms and Conditions restrict the Issuer's ability to provide asset security for the benefit of other debt and require the Issuer to secure the Notes equally if they provide security for the benefit of Capital Markets Indebtedness (as defined in the Terms and Conditions), the requirement to provide equal security to the Notes is subject to a number of significant exceptions and carve-outs. To the extent the Issuer provides asset security for the benefit of other debt without also securing the Notes, the Notes will be effectively junior to such debt to the extent of such assets.

As a result of the foregoing, holders of any secured debt of the Group may recover disproportionately more on their claims than the Noteholders in an insolvency, bankruptcy or similar proceeding. The Issuer may not have sufficient assets remaining to make payments on the Notes.

The Notes are structurally subordinated to creditors of the Issuer's subsidiaries

The Notes will not be guaranteed by any of the subsidiaries of the Issuer. Generally, claims of creditors of a subsidiary, including trade creditors, secured creditors, and creditors holding indebtedness and guarantees issued by the subsidiary, will have priority with respect to the assets and earnings of the subsidiary over the claims of creditors of its parent company. In the event of a liquidation, winding-up or dissolution or a bankruptcy, administration, reorganization, insolvency, receivership or similar proceeding of any subsidiary of the Issuer, such subsidiary will pay the holders of its own debt (including holders of third-party debt which such subsidiaries have guaranteed) before they would be able to distribute any of their assets to the Issuer. As a result, the Issuer may not have sufficient assets to make payments on the Notes.

Early redemption in case of certain events of default subject to a 25 per cent. quorum

The Terms and Conditions provide that, in case of certain events of default, any notice declaring the Notes due and payable shall become effective only when the Fiscal Agent has received such default notices from Noteholders representing at least 25 per cent. of the aggregate principal amount of the Series of Notes then outstanding. Noteholders should be aware that, as a result, they may not be able to accelerate their Notes upon the occurrence of certain events of default, unless the required quorum of Noteholders with respect to the Series of Notes delivers default notices.

Market price risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels or the lack of or excess demand for the relevant type of Note. The Noteholders are therefore exposed to the risk of an unfavourable development of market prices of their Notes, which materializes if the Noteholders sell the Notes prior to the final maturity of such Notes. If a Noteholder decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

In particular, a Noteholder of Fixed Rate Notes or Non-interest Bearing Notes is exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate levels. While the nominal interest rate of such Notes as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of such Notes also changes, but in the opposite direction. If the market interest rate increases, the price of such Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of such Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the Noteholder of such Notes holds such Notes until maturity, changes in the market interest rate are without relevance to such Noteholder as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

A Noteholder of Floating Rate Notes is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Liquidity risk

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Base Prospectus to be admitted to trading on the regulated market and to be listed on the official list of the Luxembourg Stock Exchange. However, Series of Notes issued under the Programme can also be listed on other stock exchanges or may not be listed at all, as specified in the relevant Final Terms.

Regardless of whether Series of Notes are listed or not, there is a risk that no liquid secondary market for such Notes will develop or, if it does develop, that it will not continue. The fact that Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely.

The liquidity of a Series of Notes may also be subject to fluctuations during the term of such Notes and may deteriorate, in particular as a result of repurchases and redemptions.

In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices.

Amendments to the Terms and Conditions by resolution of the Noteholders and appointment of a joint representative

Since the Terms and Conditions for a Series of Notes may be amended by the Issuer with consent of the relevant Noteholders by way of a majority resolution in a Noteholders' Meeting or by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seq. of the German Act on Issues of Debt Securities (*Gesetz über*

Schuldverschreibungen aus Gesamtemissionen, "SchVG"), the Issuer may subsequently amend the Terms and Conditions with the consent of the majority of Noteholders as described in § 15 of the Terms and Conditions, which amendment will be binding on all Noteholders of the relevant Series of Notes, even on those who voted against the change. As the relevant majority for Noteholders' resolutions is generally based on votes cast, rather than on the aggregate principal amount of the relevant Series of Notes outstanding, any such resolution may technically be passed with the consent of less than a majority of the aggregate principal amount of the relevant Series of Notes outstanding.

Therefore, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders of a particular Series of Notes, certain rights of such Noteholder against the Issuer under the Terms and Conditions may be amended or reduced or cancelled, even for Noteholders who have declared their claims arising from the Notes due and payable but who have not received payment from the Issuer prior to the amendment taking effect, which may have significant negative effects on the value of the Notes and the return from the Notes.

The Noteholders may by majority resolution provide for the appointment or dismissal of a joint representative. If a joint representative is appointed a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Terms and Conditions against the Issuer, such right passing to the Noteholders' joint representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

Risks related to the specific Conditions of the Notes

Risk of early redemption

At the Issuer's option, the Notes may be redeemed prior to the Maturity Date at par plus accrued interest if, as a result of a future change of the laws applicable in Germany, the Issuer will be obliged to pay Additional Amounts (as defined in the Terms and Conditions).

If provided for in any Final Terms for a particular Series of Notes, the Notes may be redeemed prior to the Maturity Date (i) at the option of the Issuer at the Make-Whole Redemption Amount, (ii) at the option of the Issuer on any specified Call Redemption Date or within any specified Call Redemption Period(s), (iii) at the option of the Issuer upon occurrence of a transaction related event, or (iv) if at any time the aggregate principal amount of the Notes of the relevant Series outstanding is equal to or less than 15 per cent. of the aggregate principal amount of the Notes of the Series originally issued. If the Notes of any Series are redeemed earlier than expected by a Noteholder, a Noteholder is exposed to the risk that due to the early redemption his investment will have a lower than expected yield and to the risks connected with any reinvestment of the cash proceeds received as a result of the early redemption. The redemption amount may be lower than the then prevailing market price of and the purchase price for the Notes paid by the Noteholder for the Notes so that the Noteholder in such case would not receive the total amount of the capital invested.

Risk related to the Reform of Interest Rate "Benchmarks" and possible Replacement of a Benchmark

The interest rates of Floating Rate Notes are linked to the Euro Interbank Offered Rate (EURIBOR). "Benchmarks" such as the EURIBOR (each a "Benchmark" and together, the "Benchmarks") have, in recent years, been the subject of political and regulatory scrutiny as to how they are created and operated. This has resulted in regulatory reform and changes to existing Benchmarks, with further changes anticipated.

International proposals for reform of Benchmarks include in particular the European Council's regulation (EU) 2016/1011 of June 8, 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**") which is fully applicable since January 1, 2018.

Following the implementation of such reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmarks Regulation or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

Investors should be aware that, if a Benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which are linked to or which reference such Benchmark will be determined for the relevant interest period by the fallback provisions applicable to such Notes.

If a Benchmark used to calculate interest amounts payable under any Notes for any interest period has ceased to be calculated or administered, the Issuer shall endeavour to appoint an independent adviser, which must be an independent financial

institution of international repute or other independent financial adviser experienced in the international capital markets. Such independent adviser will be tasked with determining whether an officially recognised successor rate to the discontinued Benchmark exists. If that is not the case, the independent adviser will attempt to find an alternative rate which, possibly after application of adjustments or spreads, can replace the discontinued Benchmark. If the independent adviser determines a successor rate or alternative rate (the "**New Benchmark Rate**"), such rate will replace the previous Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding for the Issuer, the Calculation Agent, the Paying Agents and the Noteholders of such Notes. Any amendments pursuant to these fallback provisions will apply with effect from the effective date specified in the Terms and Conditions.

If the Issuer fails to appoint an independent adviser or if the adviser fails to determine a New Benchmark Rate prior to the relevant interest determination date, the reference rate applicable to the immediately following interest period shall be the reference rate applicable as at the last preceding interest determination date. Any subsequent interest period may be subject to the subsequent operation of the fallback provisions.

The replacement of a Benchmark could have adverse effects on the economic return of the Noteholders of the relevant Notes compared to the applicable original benchmark rate.

Notes issued with a specific use of proceeds, such as a Green Bond

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply an amount equivalent to the net proceeds from an offer of those Notes specifically for projects and activities that promote environmental purposes ("**Eligible Green Projects**"). Covestro AG has established a framework for such issuances which further specifies the eligibility criteria for such Eligible Green Projects (the "**Green Financing Framework**") based on the recommendations included in the voluntary process guidelines for issuing green bonds published by the International Capital Market Association ("**ICMA**") (the "**ICMA Green Bond Principles 2021**"). The Green Financing Framework is available on the corporate website of the Issuer. The Issuer's Green Financing Framework may also be subject to review and change and may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from any description given in this Base Prospectus. For the avoidance of doubt, neither the Green Financing Framework nor the content of the website or the ISS Opinion (as defined below) or any other document related thereto are incorporated by reference into or form part of this Base Prospectus.

Prospective investors should refer to the information set out in the relevant Final Terms and in the Green Financing Framework regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary.

Compliance with future voluntary or regulatory initiatives

Due to the envisaged use of the proceeds from the issuance of such Tranches of Notes for Eligible Green Projects, the Issuer may refer to such Notes as "green bonds". There is currently no clearly defined term (legal, regulatory or otherwise) of, nor market consensus as to what constitutes or may be classified as, a "green" or an equivalently-labelled project. It is an area which has been, and continues to be, the subject of many and wide-ranging voluntary and regulatory initiatives to develop rules, guidelines, standards, taxonomies and objectives. Even if such voluntary or regulatory initiatives should arrive at a definition of "green" they are not necessarily meant to apply to the Notes nor will the Issuer necessarily seek compliance for any of the Notes with all or some of such rules, guidelines, standards, taxonomies or objectives.

For example, at the EU level, Regulation (EU) 2020/852 of the European Parliament and of the Council of June 18, 2020 (the "**EU Taxonomy Regulation**"), which was published in the Official Journal of the European Union on June 22, 2020 and entered into force on July 12, 2020, defined six environmental objectives and established a framework to facilitate sustainable investments in the European Union. The EU Taxonomy Regulation tasked the European Commission with establishing the actual list of environmentally sustainable activities by defining technical screening criteria for each environmental objective through delegated acts. The EU Taxonomy Climate Delegated Act, as the first delegated act supplementing the EU Taxonomy Regulation was formally adopted on June 4, 2021 and entered into force on January 1, 2022. In addition, on March 9, 2022, the European Commission adopted the EU Taxonomy Complementary Climate Delegated Act covering certain nuclear and gas activities which entered into force on January 1, 2023. Furthermore, on April 6, 2022 the European Commission adopted the Regulatory Technical Standards (RTS) to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector which also entered into force on January 1, 2023. The EU Taxonomy Regulation sets mandatory requirements on disclosure for companies and financial institution and forms the basis for a future European standard for green bonds proposed by the Technical Expert Group on Sustainable Finance in 2019 (the "**EU Green Bond Standard**"). A legislative proposal for the EU Green Bond Standard was published by the European Commission on July 6, 2021. On March 1, 2023, it was reported that a provisional political agreement was reached concerning the final text for the regulation which foresees a

voluntary standard. The agreement still needs to be confirmed and adopted by the European Council and the European Parliament. It will start applying 12 months after its entry into force.

No assurance is given by the Issuer, the Arranger or the Dealers that the envisaged use of proceeds of relevant Notes by the Issuer for any Eligible Green Projects in accordance with the Green Financing Framework will satisfy, either in whole or in part, (i) any existing or future legislative or regulatory requirements or standards such as the EU Green Bond Standard, or (ii) any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental impact of any projects or uses, the subject of or related to, the relevant Eligible Projects. Further, no assurance or representation is or can be given by the Issuer, the Arranger or the Dealers that the reporting under the Green Financing Framework will meet investor needs or expectations.

Moreover, in light of the continuing development of legal, regulatory and market conventions in the green, sustainable and positive social impact markets, there is a risk that the Issuer's Green Financing Framework may (or may not) be modified in the future to adapt to any update that may be made to the ICMA Green Bond Principles 2021 and/or the EU Green Bond Standard. Such changes may have a negative impact on the market value and the liquidity of the Notes issued prior to the amendment.

Failure to comply with the intended use of proceeds

It is the intention of the Issuer to apply an amount equivalent to the net proceeds of any relevant Notes for Eligible Green Projects in, or substantially in, the manner described in the relevant Final Terms and the Green Financing Framework. However, there can be no assurance by the Issuer, the Arranger, the Dealers or any other person that the relevant project(s) or use(s) the subject of, or related to, any Eligible Green Projects will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be disbursed in whole or in part for such Eligible Green Projects. Neither can there be any assurance by the Issuer, the Arranger, the Dealers or any other person that such Eligible Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer or that any adverse environmental and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Green Projects. Neither the Arranger nor the Dealers have undertaken, nor are they responsible for, any assessment of the Eligible Green Projects or the application, impact or monitoring of the use of proceeds of the relevant Notes.

Investors should note that (i) any such event or any failure by the Issuer to do so or (ii) any failure to provide or publish any reporting or any (impact) assessment, or (iii) any failure to obtain any certification or label (or the withdrawal of any such certification or label or of the ISS Opinion (as defined below)), or (iv) any Eligible Green Projects ceasing to be classed as such prior to maturity of the relevant Notes, or (v) the fact that the maturity of an Eligible Green Project may not match the minimum maturity of the Notes, (a) will not constitute an event or default under the Notes, (b) will not give the Noteholders the right to otherwise early terminate and demand redemption of the Notes.

Payment of principal and interest in respect of relevant Notes will be made from the Issuer's general funds and will not be directly linked to the performance of any Eligible Green Projects (or any other environmental or similar targets set by the Issuer).

Second Party Opinion

No assurance or representation can be given by the Issuer, the Arranger or the Dealers as to the suitability or reliability for any purpose whatsoever of the second party opinion by ISS Corporate Solutions, Inc. in relation to the Issuer's Green Financing Framework (the "**ISS Opinion**") or any other opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Eligible Green Projects to fulfil any environmental, social, sustainability and/or other criteria (each a "**Second Party Opinion**"). Any such Second Party Opinion may not address risks that may affect the value of any Notes issued under the Green Financing Framework or any Eligible Green Projects against which the Issuer may assign the proceeds of any Notes.

Any such Second Party Opinion provides an opinion on certain environmental and related considerations and is not intended to address any credit, market or other aspects of an investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security. Any such Second Party Opinion is a statement of opinion, not a statement of fact. Any such Second Party Opinion is not, nor should be deemed to be, a recommendation by the Issuer, the Arranger, the Dealers or any other person to buy, sell or hold any Notes. Any such Second Party Opinion is only current as of the date that opinion was initially issued and may be updated, suspended or withdrawn by the relevant provider(s) at any time. The criteria and/or considerations that formed the basis of the Second Party Opinion or any such other opinion or certification may change at any time and the Second Party Opinion may be amended, updated, supplemented, replaced and/or withdrawn.

Prospective investors must determine for themselves the relevance of any such Second Party Opinion and/or the information contained therein and/or the provider of such Second Party Opinion for the purpose of any investment in any Notes.

Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. There can be no assurance that Noteholders will have any recourse against the provider(s) of any Second Party Opinion.

Listing of Notes on dedicated stock exchange segments or platforms or inclusion in dedicated indices

In the event that any Series of Notes is listed or admitted to trading on the Luxembourg Green Exchange or any other dedicated "ESG", "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated) or included in any index so labelled, no representation or assurance is given by the Issuer, the Arranger, the Dealers or any other person that such listing, admission or inclusion satisfies, whether in whole or in part, any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates. Furthermore, it should be noted that the criteria for any such listing, admission to trading or inclusion in any index may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Arranger, the Dealers or any other person that any such listing, admission to trading or inclusion in any index will be obtained in respect of any Series of Notes or, if obtained, that any such listing, admission to trading or inclusion in any index will be maintained during the life of that Series of Notes.

Summary of potential implications for Noteholders

Any of the risks mentioned above and in particular (i) the non-compliance of the Notes with any future voluntary or regulatory standard for sustainable instruments, (ii) a failure to apply an amount equivalent to the proceeds of any issue of Notes for any Eligible Green Projects, (iii) the withdrawal of the ISS Opinion or (iv) the Notes ceasing to be listed, admitted to trading on any dedicated stock exchange or securities market or included in any dedicated index may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance similar Eligible Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

ISSUE PROCEDURES

The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the "**Terms and Conditions**") as further specified by the Final Terms (the "**Final Terms**") as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the Issuer to choose between the following Options:

- Option I - Terms and Conditions for Fixed Rate Notes and Non-interest Bearing Notes; and
- Option II - Terms and Conditions for Floating Rate Notes.

Documentation of the Conditions

The Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Base Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Base Prospectus only. The Final Terms will specify that the information contained in Part I of the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the information contained in Part I of the Final Terms and the relevant set of Terms and Conditions as set out in the Base Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterized by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Base Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Base Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

The Notes are issued in new global note ("NGN") form and are kept in custody by a common safekeeper on behalf of both ICSDs.

In the case of Notes intended to be issued in the New Global Note form, the following applies:

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Schuldverschreibungen ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

On any redemption **[in the case of Fixed Rate Notes insert:** or interest] payment being made in respect of, or purchase and cancellation of, any of the Notes represented by the Global Note the Issuer shall procure that details of such redemption, payment or purchase and cancellation (as the case may be) in respect of the Global Note shall be entered *pro rata* in the records of the ICSDs and, upon any such entry being made, the aggregate principal amount of the Notes recorded in the records of the ICSDs and represented by the Global Note shall be reduced by the aggregate principal amount of the Notes so redeemed or purchased and cancelled.

Bei Austausch eines Anteils von ausschließlich durch eine Vorläufige Globalurkunde verbrieften Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Aufzeichnungen der ICSDs aufgenommen werden.

On an exchange of a portion only of the Notes represented by a Temporary Global Note, the Issuer shall procure that details of such exchange shall be entered *pro rata* in the records of the ICSDs.

Die Vorläufige Globalurkunde und die Dauer-Globalurkunde tragen jeweils die eigenhändigen Unterschriften von zwei Vertretungsberechtigten der Emittentin sowie die eigenhändige Unterschrift eines Kontrollbeauftragten der Emissionsstelle und die eigenhändige Unterschrift eines bevollmächtigten Vertreters des gemeinsamen Wertpapierverwahrers.

The Temporary Global Note and the Permanent Global Note shall each bear the manual signatures of two duly authorised officers of the Issuer as well as the manual signature of an authentication officer of the Fiscal Agent and the manual signature of an authorised officer of the common safekeeper.

- (e) *Anleihegläubiger*. Den Inhabern von Schuldverschreibungen ("**Anleihegläubiger**") stehen Miteigentumsanteile oder vergleichbare andere Rechte an der Globalurkunde zu, die gemäß anwendbarem Recht und den Bestimmungen und Regeln des Clearingsystems übertragen werden können.

§ 2 Status und Negativerklärung

- (a) *Status*. Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.

- (b) *Negativerklärung*. Dem Anleihegläubiger steht das Recht, die vorzeitige Rückzahlung zu verlangen, nicht in Bezug auf eine Schuldverschreibung zu, deren Rückzahlung die Emittentin zuvor gemäß § 4 verlangt hat.

The Noteholder may not exercise the option for early redemption in respect of any Note which is the subject of the prior exercise by the Issuer of its right to redeem such Note in accordance with § 4.

- (ii) Um dieses Recht auszuüben, hat der Anleihegläubiger nicht weniger als 30 und nicht mehr als 60 Tage vor dem Put-Rückzahlungstag, an dem die betreffenden Schuldverschreibungen gemäß der Ausübungserklärung (wie nachstehend definiert) zurückgezahlt werden sollen, bei der bezeichneten Geschäftsstelle der Emissionsstelle während der normalen Geschäftszeiten eine ordnungsgemäß ausgefüllte Erklärung zur vorzeitigen Rückzahlung ("**Ausübungserklärung**"), wie sie von der bezeichneten Geschäftsstelle der Emissionsstelle erhältlich ist, zu hinterlegen. Die Ausübungserklärung hat anzugeben: (i) den Nennbetrag der Schuldverschreibungen, für die das Recht ausgeübt wird und (ii) die Wertpapierkennungen dieser Schuldverschreibungen (soweit vergeben). Die Rückzahlung der Schuldverschreibungen, für welche das Recht ausgeübt worden ist, erfolgt nur gegen Lieferung der Schuldverschreibungen an die Emittentin oder an deren Order. Die Ausübung des Rechts kann nicht widerrufen werden.

- (ii) In order to exercise the option, the Noteholder must, not less than 30 nor more than 60 days before the Put Redemption Date on which such redemption is required to be made as specified in the Put Notice (as defined below), submit during normal business hours at the specified office of the Fiscal Agent a duly completed early redemption notice ("**Put Notice**") in the form available from the specified office of the Fiscal Agent. The Put Notice must specify (i) the principal amount of the Notes in respect of which such option is exercised, and (ii) the securities identification numbers of such Notes, if any. The Issuer shall only be required to redeem Notes in respect of which such option is exercised against delivery of such Notes to the Issuer or to its order. No option so exercised may be revoked or withdrawn.

- (f) *Erwerb.*

Die Emittentin oder jede ihrer Tochtergesellschaften können jederzeit vorbehaltlich zwingender gesetzlicher Regelungen Schuldverschreibungen auf dem freien Markt oder anderweitig sowie zu jedem beliebigen Preis erwerben. Derartig erworbene Schuldverschreibungen können eingezogen, gehalten oder wieder veräußert werden.

- (f) *Purchase.*

The Issuer or any of its subsidiaries may at any time and subject to mandatory provisions of law purchase Notes in the open market or otherwise and at any price. Such acquired Notes may be cancelled, held or resold.

Falls die Schuldverschreibungen im Fall eines Kontrollwechsels vorzeitig kündbar sind, gilt Folgendes:

(g) *Kontrollwechsel.*

Tritt (i) ein Kontrollwechsel ein und (ii) kommt es innerhalb des Kontrollwechselzeitraums zu einer Absenkung des Ratings und (iii) gibt die Rating Agentur, die für die Absenkung des Ratings verantwortlich ist, öffentlich bekannt oder bestätigt der Emittentin schriftlich, dass die Absenkung des Ratings, insgesamt oder teilweise, auf Grund des Kontrollwechsels erfolgte (zusammen, ein "**Rückzahlungsereignis**"), hat jeder Anleihegläubiger das Recht (sofern nicht die Emittentin, bevor die nachstehend beschriebene Rückzahlungsmittelteilung gemacht wird, die Rückzahlung der Schuldverschreibungen nach § 4 (b) [oder (c)] angezeigt hat), die Rückzahlung seiner Schuldverschreibungen durch die Emittentin zu ihrer Festgelegten Stückelung [**im Fall von festverzinslichen Schuldverschreibungen einfügen:** zuzüglich der bis zum Rückzahlungstag (ausschließlich) aufgelaufenen Zinsen] zu verlangen.

Für Zwecke dieses Wahlrechts:

Bedeutet "**Rating Agentur**" jede Ratingagentur von Moody's Investors Services ("**Moody's**") oder eine ihrer Nachfolgesellschaften oder jede andere Rating Agentur vergleichbaren internationalen Ansehens, wie von Zeit zu Zeit durch die Emittentin bestimmt;

Gilt eine "**Absenkung des Ratings**" in Bezug auf einen Kontrollwechsel als eingetreten, wenn (a) innerhalb des Kontrollwechselzeitraums ein vorher für die Emittentin oder die Schuldverschreibungen vergebenes Rating einer Rating Agentur (i) zurückgezogen oder (ii) von einem Investment Grade Rating (Baa3 von Moody's oder jeweils gleichwertig, oder besser) in ein non-Investment Grade Rating (Ba1 von Moody's oder jeweils gleichwertig, oder schlechter) geändert oder (iii) (falls das für die Schuldverschreibungen vergebene Rating einer Rating Agentur unterhalb des Investment Grade Ratings liegt) um einen ganzen Punkt (von Ba1 nach Ba2 von Moody's oder eine ähnliche Absenkung eines gleichwertigen Ratings) abgesenkt wird oder (b) zur Zeit des Kontrollwechsels kein Rating für die Schuldverschreibungen oder die Emittentin vergeben ist und keine Rating Agentur während des Kontrollwechselzeitraums ein Investment Grade Rating für die Schuldverschreibungen vergibt (es sei denn, die Emittentin ist trotz zumutbarer Anstrengungen innerhalb dieses Zeitraums nicht in der Lage, ein solches Rating zu erhalten, ohne dass dies seine Ursache im Kontrollwechsel hat);

Gilt ein "**Kontrollwechsel**" jedes Mal als eingetreten, wenn eine Person oder mehrere Personen (die "**relevante(n) Person(en)**"), die abgestimmt handeln, oder einer oder mehrere Dritte, die im Auftrag der relevanten Person(en) handeln, zu irgendeiner Zeit mittelbar oder unmittelbar (unabhängig davon, ob der Vorstand oder der Aufsichtsrat der Emittentin seine Zustimmung erteilt hat) (i) mehr als 50 % des ausstehenden Grundkapitals der Emittentin oder (ii) eine solche Anzahl von Aktien der Emittentin hält bzw. halten oder erworben hat bzw. haben, auf die mehr als 50 % der Stimmrechte entfallen;

(g) *Change of Control.*

If there (i) occurs a Change of Control and (ii) within the Change of Control Period a Rating Downgrade occurs and (iii) the Rating Agency responsible for the Rating Downgrade announces publicly or confirms in writing to the Issuer that such Rating Downgrade resulted, in whole or in part, from the occurrence of the Change of Control (together called a "**Put Event**"), each Noteholder will have the option (unless, prior to the giving of the Put Event Notice referred to below, the Issuer gives notice to redeem the Notes in accordance with § 4(b) [or (c)]) to require the Issuer to redeem that Note on the Optional Redemption Date at its Specified Denomination [**in the case of Fixed Rate Notes insert:** together with interest accrued to but excluding the Optional Redemption Date].

For the purposes of such option:

"**Rating Agency**" means the rating agencies of Moody's Investors Services ("**Moody's**") or any of its successors or any other rating agency of equivalent international standing specified from time to time by the Issuer;

A "**Rating Downgrade**" shall be deemed to have occurred in respect of a Change of Control (a) if within the Change of Control Period any rating previously assigned to the Issuer or the Notes by any Rating Agency is (i) withdrawn or (ii) changed from an investment grade rating (Baa3 by Moody's, or its equivalent for the time being, or better) to a non-investment grade rating (Ba1 by Moody's, or its equivalent for the time being, or worse) or (iii) (if the rating assigned to the Notes by any Rating Agency shall be below an investment grade rating) lowered one full rating notch (from Ba1 to Ba2 by Moody's or such similar lower of equivalent rating) or (b) if at the time of the Change of Control, there is no rating assigned to the Notes or the Issuer and no Rating Agency assigns during the Change of Control Period an investment grade credit rating to the Notes (unless the Issuer is unable to obtain such a rating within such period having used all reasonable endeavours to do so and such failure is unconnected with the occurrence of the Change of Control);

A "**Change of Control**" shall be deemed to have occurred at each time (whether or not approved by the board of management or supervisory board of the Issuer) that any person or persons ("**Relevant Person(s)**") acting in concert or any person or persons acting on behalf of any such Relevant Person(s), at any time directly or indirectly acquire(s) or come(s) to own (i) more than 50 per cent. of the issued ordinary share capital of the Issuer or (ii) such number of the shares in the capital of the Issuer carrying more than 50 per cent. of the voting rights;

If the Notes are subject to Early Redemption as a result of a Change of Control the following applies:

Ist der "**Kontrollwechselzeitraum**" der Zeitraum, der 120 Tage nach dem Eintritt eines Kontrollwechsels endet; und

Ist der "**Rückzahlungstag**" der siebte Tag nach dem letzten Tag des Rückzahlungszeitraums.

Sofort nachdem die Emittentin von einem Rückzahlungsereignis Kenntnis erlangt, wird die Emittentin den Anleihegläubigern gemäß § 11 Mitteilung vom Rückzahlungsereignis machen (eine "**Rückzahlungsmitteilung**"), in der die Umstände des Rückzahlungsereignisses sowie das Verfahren für die Ausübung des in diesem § 4 (g) genannten Wahlrechts angegeben sind.

Zur Ausübung dieses Wahlrechts muss der Anleihegläubiger während der normalen Geschäftsstunden innerhalb eines Zeitraums (der "**Rückzahlungszeitraum**") von 45 Tagen, nachdem die Rückzahlungsmitteilung veröffentlicht ist, eine ordnungsgemäß ausgefüllte und unterzeichnete Ausübungserklärung bei der angegebenen Niederlassung der Emissionsstelle einreichen (die "**Ausübungserklärung**"), die in ihrer jeweils maßgeblichen Form bei der angegebenen Niederlassung der Emissionsstelle erhältlich ist. Ein so ausgeübtes Wahlrecht kann nicht ohne vorherige Zustimmung der Emittentin widerrufen oder zurückgezogen werden.

"**Change of Control Period**" means the period ending 120 days after the occurrence of the Change of Control; and

The "**Optional Redemption Date**" is the seventh day after the last day of the Put Period.

Promptly upon the Issuer becoming aware that a Put Event has occurred, the Issuer shall give notice (a "**Put Event Notice**") to the Noteholders in accordance with § 11 specifying the nature of the Put Event and the circumstances giving rise to it and the procedure for exercising the option set out in this §4(g).

In order to exercise such option, the Noteholder must submit during normal business hours at the specified office of the Fiscal Agent a duly completed option exercise notice ("**Exercise Notice**") in the form available from the specified office of the Fiscal Agent within the period (the "**Put Period**") of 45 days after a Put Event Notice is given. No option so exercised may be revoked or withdrawn without the prior consent of the Issuer.

Wenn ein Benchmark-Ereignis in Bezug auf den Ursprünglichen Benchmarksatz eintritt, gilt für die Bestimmung des betreffenden Referenzsatzes und die Verzinsung der Schuldverschreibungen gemäß § 3(b) Folgendes:

- (i) *Unabhängiger Berater.* Die Emittentin wird sich bemühen, sobald dies (nach Ansicht der Emittentin) nach Eintritt des Benchmark-Ereignisses und vor dem nächsten Zinsfestsetzungstag erforderlich ist, einen Unabhängigen Berater zu benennen, der einen Neuen Benchmarksatz (wie in § 3(e)(vi) definiert), die Anpassungsspanne (wie in § 3(e)(vi) definiert) und etwaige Benchmark-Änderungen (gemäß § 3(e)(iv)) festlegt.
- (ii) *Ausweichsatz (fallback).* Wenn vor dem 10. Geschäftstag vor dem betreffenden Zinsfestsetzungstag
 - (A) die Emittentin keinen Unabhängigen Berater ernannt hat; oder
 - (B) der ernannte Unabhängige Berater keinen Neuen Benchmarksatz gemäß diesem § 3(e) festgelegt hat,

dann entspricht der Referenzsatz für die nächste Zinsperiode dem an dem letzten zurückliegenden Zinsfestsetzungstag festgestellten Ursprünglichen Benchmarksatz.

Falls der gemäß diesem § 3(e)(ii) bestimmte Ausweichsatz (*fallback*) zur Anwendung kommt, wird § 3(e) erneut angewendet, um den Referenzsatz für die nächste nachfolgende (und, sofern notwendig, weitere nachfolgende) Zinsperiode(n) zu bestimmen.

- (iii) *Nachfolge-Benchmarksatz oder Alternativ-Benchmarksatz.* Falls der Unabhängige Berater nach billigem Ermessen feststellt,

(e) *Benchmark Event.*

If a Benchmark Event occurs in relation to the Original Benchmark Rate, the relevant Reference Rate and the interest on the Notes in accordance with § 3(b) will be determined as follows:

- (i) *Independent Adviser.* The Issuer shall, as soon as this is (in the Issuer's view) required following the occurrence of the Benchmark Event and prior to the next Interest Determination Date, endeavour to appoint an Independent Adviser, who will determine a New Benchmark Rate (as defined in § 3(e)(vi)), the Adjustment Spread (as defined in § 3(e)(vi)) and any Benchmark Amendments (in accordance with § 3(e)(iv)).
- (ii) *Fallback rate.* If, prior to the 10th Business Day prior to the relevant Interest Determination Date,
 - (A) the Issuer has not appointed an Independent Adviser; or
 - (B) the Independent Adviser appointed by it has not determined a New Benchmark Rate in accordance with this § 3(e),

the Reference Rate applicable to the next Interest Period shall be the Original Benchmark Rate determined on the last preceding Interest Determination Date.

If the fallback rate determined in accordance with this § 3(e)(ii) is to be applied, § 3(e) will be operated again to determine the Reference Rate applicable to the next subsequent (and, if required, further subsequent) Interest Period(s).

- (iii) *Successor Benchmark Rate or Alternative Benchmark Rate.* If the Independent Adviser determines in its reasonable discretion that:
 - (A) there is a Successor Benchmark Rate, then such Successor Benchmark Rate shall subsequently be the New Benchmark Rate; or
 - (B) there is no Successor Benchmark Rate but that there is an Alternative Benchmark Rate, then such Alternative Benchmark Rate shall subsequently be the New Benchmark Rate.

In each such case the "**Reference Rate**" for the immediately following Interest Period and all following Interest Periods will then be (x) the

- New Benchmark Rate on the relevant Interest Determination Date plus (y) the Adjustment Spread.

- (C) the payment business day condition in § 5(d).
- (v) *Notices, etc*
- (A) The Issuer will notify any New Benchmark Rate, the Adjustment Spread and the Benchmark Amendments (if any) or the Fallback Rate, as the case may be, determined under this § 3(e) to the Fiscal Agent, the Calculation Agent and the Paying Agents as soon as such notification is (in the Issuer's view) required following the determination thereof, but in any event not later than on the 10th Business Day prior to the relevant Interest Determination Date. § 13 Applicable Law, Place of Performance and Jurisdiction

- (a) *Applicable law.* The form and content of the Notes as well as all the rights and duties arising therefrom are governed exclusively by the laws of the Federal Republic of Germany.

§ 14 Amendments to the Terms and Conditions; Joint Representative

- (a) *Amendment of the Terms and Conditions.* The Issuer may amend the Terms and Conditions with the consent of a majority resolution of the Noteholders pursuant to §§ 5 et seq. of the SchVG. There will be no amendment of the Terms and Conditions without the Issuer's consent.

In particular, the Noteholders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under

den in dem nachstehenden § 14(b) genannten Mehrheiten zustimmen. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.

- (b) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.
- (c) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach § 14(c)(i) oder im Wege der Abstimmung ohne Versammlung nach § 14(c)(ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.

- (ii) Beschlüsse der Anleihegläubiger im Wege der Abstimmung ohne Versammlung werden nach § 18 SchVG getroffen. - (d) *Zweite Gläubigerversammlung.* Wird die Beschlussfähigkeit bei der Abstimmung ohne Versammlung nach § 14(c)(ii) nicht festgestellt, kann der Abstimmungsleiter eine Gläubigerversammlung einberufen, welche als zweite Gläubigerversammlung im Sinne des § 15(3) Satz 3 SchVG gilt.
- (e) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Die Anmeldung muss bis zum dritten Tag vor der Gläubigerversammlung im Fall einer Gläubigerversammlung (wie in § 14(c)(i) oder § 14(d) beschrieben) bzw. vor dem Beginn des § 5(3) of the SchVG, by resolution passed by such majority of the votes of the Noteholders as stated under § 14(b) below. A duly passed majority resolution will be binding upon all Noteholders.
- (b) *Majority requirements.* Except as provided by the following sentence and provided that the quorum requirements are being met, the Noteholders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Terms and Conditions, in particular in the cases of § 5(3) numbers 1 through 9 of the SchVG, may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a "**Qualified Majority**"). The voting right is suspended as long as any Notes are attributable to the Issuer or any of its affiliates (within the meaning of § 271(2) of the German Commercial Code (*Handelsgesetzbuch*)) or are being held for the account of the Issuer or any of its affiliates.
- (c) *Resolutions.* Resolutions of the Noteholders will be made either in a Noteholders' meeting in accordance with § 14(c)(i) or by means of a vote without a meeting (*Abstimmung ohne Versammlung*) in accordance with § 14(c)(ii), in either case convened by the Issuer or a joint representative, if any.

- (ii) Resolutions of the Noteholders by means of a voting not requiring a physical meeting (*Abstimmung ohne Versammlung*) will be made in accordance § 18 of the SchVG. The request for voting as submitted by the chairman (*Abstimmungsleiter*) will provide the further details relating to the resolutions and the voting procedure. The subject matter of the vote as well as the proposed resolutions will be notified to Noteholders together with the request for voting.
- (d) *Second noteholders' meeting.* If it is ascertained that no quorum exists for the vote without meeting pursuant to § 14(c)(ii), the chairman (*Abstimmungsleiter*) may convene a meeting, which shall be deemed to be a second meeting within the meaning of § 15(3) sentence 3 of the SchVG.
- (e) *Registration.* The exercise of voting rights is subject to the registration of the Noteholders. The registration must be received at the address stated in the request for voting no later than the third day prior to the meeting in the case of a Noteholders' meeting (as described in § 14(c)(i) or § 14(d)) or the beginning of the voting period

Abstimmungszeitraums im Fall einer Abstimmung ohne Versammlung (wie in § 14(c)(ii) beschrieben) unter der in der Aufforderung zur Stimmabgabe angegebenen Anschrift zugehen. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.

- (f) *Gemeinsamer Vertreter.* Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters, die Aufgaben und Befugnisse des gemeinsamen Vertreters, die Übertragung von Rechten der Anleihegläubiger auf den gemeinsamen Vertreter und eine Beschränkung der Haftung des gemeinsamen Vertreters bestimmen. Die Bestellung eines gemeinsamen Vertreters bedarf einer Qualifizierten Mehrheit, wenn er ermächtigt wird, wesentlichen Änderungen der Anleihebedingungen gemäß § 14(a) zuzustimmen.

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Anleihegläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Anleihegläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Anleihegläubiger ermächtigt ist, sind die einzelnen Anleihegläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Anleihegläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.

- (g) *Bekanntmachungen.* Bekanntmachungen betreffend diesen § 14 erfolgen gemäß den §§ 5ff. SchVG sowie nach § 11.

To the extent that the joint representative has been authorised to assert certain rights of the Noteholders, the Noteholders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The joint representative shall provide reports to the Noteholders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the joint representative.

FORM OF FINAL TERMS

In case of Notes admitted to trading on the regulated market of the Luxembourg Stock Exchange, the Final Terms will be displayed on the website of the Luxembourg Stock Exchange (www.luxse.com).

MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.

MIFID II PRODUKTÜBERWACHUNGSPFLICHTEN / ZIELMARKT PROFESSIONELLE INVESTOREN UND GEEIGNETE GEGENPARTEIEN – Die Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen hat – ausschließlich für den Zweck des Produktgenehmigungsverfahrens [des/jedes] Konzepteurs – zu dem Ergebnis geführt, dass: (i) der Zielmarkt für die Schuldverschreibungen ausschließlich geeignete Gegenparteien und professionelle Kunden, jeweils im Sinne der Richtlinie 2014/65/EU (in der jeweils gültigen Fassung, "MiFID II"), umfasst und (ii) alle Kanäle für den Vertrieb der Schuldverschreibungen an geeignete Gegenparteien und professionelle Kunden angemessen sind. Jede Person, die in der Folge die Schuldverschreibungen anbietet, verkauft oder empfiehlt (ein "Vertriebsunternehmen") soll die Beurteilung des Zielmarkts [des/der] Konzepteur[s/e] berücksichtigen; ein Vertriebsunternehmen, welches MiFID II unterliegt, ist indes dafür verantwortlich, seine eigene Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen durchzuführen (entweder durch die Übernahme oder durch die Präzisierung der Zielmarktbestimmung [des/der] Konzepteur[s/e]) und angemessene Vertriebskanäle zu bestimmen.

[UK MIFIR PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.¹

[UK MIFIR PRODUKTÜBERWACHUNGSPFLICHTEN / ZIELMARKT PROFESSIONELLE INVESTOREN UND GEEIGNETE GEGENPARTEIEN – Die Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen hat – ausschließlich für den Zweck des Produktgenehmigungsverfahrens [des/jedes] Konzepteurs – zu dem Ergebnis geführt, dass: (i) der Zielmarkt für die Schuldverschreibungen ausschließlich geeignete Gegenparteien im Sinne des FCA-Handbuchs Conduct of Business Sourcebook ("COBS") und professionelle Kunden im Sinne der Verordnung (EU) Nr. 600/2014, wie sie aufgrund des European Union (Withdrawal) Act 2018 ("UK MiFIR") Teil des nationalen Rechts ist, umfasst und (ii) alle Kanäle für den Vertrieb der Schuldverschreibungen an geeignete Gegenparteien und professionelle Kunden angemessen sind. Jede Person, die in der Folge die Schuldverschreibungen anbietet, verkauft oder empfiehlt (ein "Vertriebsunternehmen") soll die Beurteilung des Zielmarkts [des/der] Konzepteur[s/e] berücksichtigen; ein Vertriebsunternehmen, welches dem FCA-Handbuch Product Intervention and Product Governance Sourcebook (die "UK MiFIR Product Governance Rules") unterliegt, ist indes dafür verantwortlich, seine eigene Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen durchzuführen (entweder durch die Übernahme oder durch die Präzisierung der Zielmarktbestimmung [des/der] Konzepteur[s/e]) und angemessene Vertriebskanäle zu bestimmen.]²

¹ Include legend in case UK MiFIR target market assessment in respect of the Notes is "Professional Investors and Eligible Counterparties only". The legend may not be necessary if the Dealers in relation to the Notes are also not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or both are included.

² *Legende einsetzen, wenn UK MiFIR Zielmarktbestimmung im Hinblick auf die Schuldverschreibungen ergeben hat "Ausschließlich Professionelle Investoren und Geeignete Gegenparteien". Die Legende ist möglicherweise nicht erforderlich, wenn die Platzeure in Bezug auf die Schuldverschreibungen ebenfalls nicht der UK MiFIR unterliegen und es daher keine UK MiFIR-Konzepture gibt. [PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended or superseded, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]³

[VERBOT DES VERKAUFS AN KLEINANLEGER IM EWR – Die Schuldverschreibungen sind nicht zum Angebot, zum Verkauf oder zur sonstigen Zurverfügungstellung an Kleinanleger im Europäischen Wirtschaftsraum ("EWR") bestimmt und sollten Kleinanlegern im EWR nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für die Zwecke dieser Bestimmung bezeichnet der Begriff Kleinanleger eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 4 Abs. 1 Nr. 11 der Richtlinie 2014/65/EU (in ihrer jeweils gültigen Fassung, "MiFID II"); oder (ii) sie ist ein Kunde im Sinne der Richtlinie 2016/97/EU (in ihrer jeweils gültigen Fassung, die "Versicherungsvertriebsrichtlinie"), soweit dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Abs. 1 Nr. 10 MiFID II gilt. Entsprechend wurde kein nach der Verordnung (EU) Nr. 1286/2014 (in ihrer jeweils gültigen oder ersetzten Fassung, die "PRIIPs-Verordnung") erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR erstellt; daher kann das Angebot oder der Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR nach der PRIIPs-Verordnung rechtswidrig sein.]⁴

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]⁵

[VERBOT DES VERKAUFS AN KLEINANLEGER IN GB – Die Schuldverschreibungen sind nicht zum Angebot, zum Verkauf oder zur sonstigen Zurverfügungstellung an Kleinanleger im Vereinigten Königreich ("GB") bestimmt und sollten Kleinanlegern in GB nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für die Zwecke dieser Bestimmung bezeichnet der Begriff Kleinanleger eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) ein Kleinanleger im Sinne von Artikel 2 Punkt (8) der Verordnung (EU) Nr. 2017/565, wie sie aufgrund des European Union (Withdrawal) Act 2018 ("EUWA") Teil des nationalen Rechts ist; oder (ii) ein Kunde im Sinne der Bestimmungen des Financial Services and Markets Act 2000, in seiner jeweiligen Fassung (der "FSMA") und jeglicher Vorschriften oder Verordnungen, die im Rahmen des FSMA zur Umsetzung der Richtlinie (EU) 2016/97 erlassen wurden, wenn dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 2 Absatz 1 Punkt (8) der Verordnung (EU) Nr. 600/2014, wie sie durch das EUWA Teil des nationalen Rechts ist, qualifiziert wäre. Entsprechend wurde kein nach der Verordnung (EU) Nr. 1286/2014, wie sie aufgrund des EUWA Teil des nationalen Rechts ist (die "UK PRIIPs-Verordnung"), erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger in GB erstellt; daher kann das Angebot

Standort der Konzepture, kann es Situationen geben, in denen entweder die MiFID II Product Governance Legende oder die UK MiFIR Product Governance Legende oder beide enthalten sind.

³ Include legend unless the Final Terms specify "Prohibition of Sales to EEA Retail Investors" as "Not Applicable".

⁴ Legende einzufügen, sofern nicht die Endgültigen Bedingungen das "Verkaufsverbot an Kleinanleger im EWR" für "Nicht anwendbar" erklären.

⁵ Include legend unless the Final Terms specify "Prohibition of Sales to UK Retail Investors" as "Not Applicable". The assumption is that if there are potentially sales in the European Economic Area it is likely that there will also potentially be sales in the United Kingdom and vice versa such that the United Kingdom Prohibition and European Economic Area Prohibition would both be included unless specified as "Not Applicable".

[In connection with Section 309B of the Securities and Futures Act 2001 of Singapore (the "SFA") and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "CMP Regulations 2018"), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and are Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendation on Investment Products).]

[In Verbindung mit Section 309B des Securities and Futures Act 2001 von Singapur (der "SFA") und den Securities and Futures (Capital Markets Products) Regulations 2018 von Singapur (die "CMP Regulations 2018"), hat die Emittentin festgestellt und benachrichtigt hiermit alle relevanten Personen (wie in Section 309A(1) des SFA definiert), dass es sich bei den Schuldverschreibungen um prescribed capital markets products (wie in den CMP Regulations 2018 definiert) und um Excluded Investment Products (wie in der MAS-Mitteilung SFA 04-N12: Notice on the Sale of Investment Products und der MAS Notice FAA-N16: Notice on Recommendation on Investment Products definiert) handelt.]

⁶ *Legende einzufügen, sofern nicht die Endgültigen Bedingungen das "Verkaufsverbot an Kleinanleger in GB" für "Nicht anwendbar" erklären. Es wird davon ausgegangen, dass, wenn es potenziell Verkäufe im Europäischen Wirtschaftsraum gibt, es potenziell auch Verkäufe im Vereinigten Königreich gibt und umgekehrt, sodass sowohl das Verkaufsverbot im Vereinigten Königreich als auch das Verkaufsverbot im Europäischen Wirtschaftsraum einzufügen wären, sofern sie nicht für "Nicht anwendbar" erklärt wurden.*

⁴² Moody's defines "Baa2" as follows: "Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category". Holders should be aware that a credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

With effect as of September 1, 2015, Bayer AG contributed all shares in Covestro Deutschland AG to the unrestricted capital reserves (*ungebundene Kapitalrücklage*) of Covestro AG. From the date of this contribution the Group operated under the name "Covestro" independently from the Bayer Group.

On September 4, 2015, Bayer AG announced to proceed with an initial public offering of Covestro AG. Beginning from September 21, 2015, shares in Covestro AG were offered to the public in Germany and Luxembourg and to institutional and qualified investors in certain other jurisdictions including the United States. The offer concluded on October 2, 2015 and the offer price was fixed at EUR 24.00 per share. The gross proceeds from the offering amounted to EUR 1.5 billion.

On October 6, 2015, Covestro AG's shares were listed and traded for the first time on the regulated market (Prime Standard) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*).

Group Structure

Covestro AG is the parent company of the Group. Covestro AG's business is not conducted by Covestro AG itself but almost entirely by the relevant operating subsidiaries. As of December 31, 2022, the Group included Covestro AG and 60 consolidated companies worldwide, of which 10 are German companies. Covestro AG is the stock exchange listed parent company of the Group. Covestro AG and Covestro Deutschland AG have entered into a domination and profit and loss transfer agreement (*Beherrschungs- und Ergebnisabführungsvertrag*) effective as of September 1, 2015. There also are certain profit and loss transfer agreements (*Ergebnisabführungsverträge*) between certain other companies of the Group.

Business Overview

Based on its internal analyses and assessments, the Group considers itself as one of the world's leading suppliers of high-tech polymer materials and application solutions developed for these materials. The Group produces precursors for polyurethane foams and the high-performance plastic polycarbonate as well as precursors for coatings, adhesives, sealants, and specialty products, including films. Other precursors such as chlorine and by-products like styrene are also part of the Group's product portfolio.

The Group's main customers are from the automotive and transportation, construction, furniture and wood processing, and electrical, electronics, and household appliances industries. The products are also used in sectors such as sports and leisure, cosmetics and health, as well as in the chemical industry itself. In addition, the Group's materials are used to manufacture medical equipment, safety barriers, and sneeze and splash guards used to combat and control the spread of the coronavirus pandemic.

In the fiscal year 2022, the Group had external sales of EUR 17,968 million (diversified across customer industries) and EBITDA of EUR 1,617 million. The Group defines "EBITDA" as EBIT plus amortization and impairment losses on intangible assets, and depreciation and impairment losses in property, plant and equipment, less impairment loss reversals. "EBIT" is defined as income after income taxes plus financial result and income tax expense.

Reportable segments and business entities

In the year 2021, the Group unveiled the Group's strategy "Sustainable Future", which has customer centricity and sustainable growth at its core. The guiding principle of the strategy and the Group's long-term vision is to become fully circular. In the interest of this vision, the Group realigned its organizational and reporting structure effective July 1, 2021. The Group's previous three reportable segments – Polyurethanes (PUR), Polycarbonates (PCS), and Coatings, Adhesives, Specialties (CAS) – have been replaced with two reportable segments: Performance Materials (PM) and Solutions & Specialties (S & S). The segments further comprise seven business entities. These are set up according to their respective success factors. All mission-critical operations along the value chain are incorporated into these business entities. The Group has therefore focused its businesses perfectly on the requirements of individual markets and aligned them with its customers' needs.

The following diagram provides a simplified overview of the Group's operations.

In addition to the reportable segments, the Group has established central corporate functions which work toward the further long-term development of the Group ("**Build**"), for instance permanently ensuring the Group's competitiveness, and supporting efficient corporate governance ("**Run**").

Performance Materials Segment

The Performance Materials segment forms a separate business entity comprising the Group's standard urethane components, standard polycarbonates, and base chemicals businesses. The focus here is on reliably delivering standard products at competitive cost.

The Performance Materials segment focuses on developing, producing, and reliably supplying high-performance materials such as standard polyurethanes and polycarbonates, as well as base chemicals. These include diphenylmethane diisocyanate ("**MDI**"), toluene diisocyanate ("**TDI**"), long-chain polyols, and polycarbonate resins. Those materials are used in sectors such as the furniture, wood processing, and construction industry as well as the automotive and transportation industry. These materials are used in roof structures, insulation for buildings and refrigerators, mattresses, and car seats, among other applications.

In the fiscal year 2022, the Performance Materials segment had external sales of EUR 9,095 million (previous year: EUR 8,142 million), accounted for 50.6% of total Group sales and had EBITDA of EUR 951 million (previous year: EUR 2,572 million).

Solutions & Specialties Segment

The Solutions & Specialties segment comprises six business entities: Engineering Plastics, Coatings & Adhesives, Tailored Urethanes, Thermoplastic Polyurethanes, Specialty Films, and Elastomers. In this segment, the Group combines sophisticated products with a high pace of innovation and application technology services.

The Solutions & Specialties segment consolidates the Group's solutions and specialties businesses, and combines chemical products with application technology services. A fast pace of innovation is a key success factor since customer requirements change quickly. The Group's Solutions & Specialties business comprises a variety of polymer products including polycarbonates, precursors for coatings and adhesives, MDI specialties and polyols, thermoplastic polyurethanes, speciality films and elastomers. They are used in sectors such as the automotive and transportation industry; the electrical, electronics and household appliances industry; the construction industry; and the healthcare industry. These materials include composite resins for wind turbine rotor blades, precursors for coatings and adhesives, laptop cases, floodlights and high-quality specialty films.

In the fiscal year 2022, the Solutions & Specialties segment had external sales of EUR 8,558 million (previous year: EUR 7,554 million), accounted for 47.6% of total Group sales and had EBITDA of EUR 825 million (previous year: EUR 751 million).

Internal functions

Procurement

Purchasing at the Group is handled by the corporate group procurement ("**Group Procurement**") function. Group Procurement works with the business entities and hubs of the corporate supply chain and logistics ("**Supply Chain & Logistics**") function to ensure the timely global supply of goods and services to all divisions of the company under the best possible conditions. Furthermore, Group Procurement is responsible for ensuring that the Group's ethical and environmental principles are upheld throughout the entire procurement process.

The Group's primary raw materials are petrochemical derivatives, such as benzene, phenol, propylene oxide, toluene and acetone as well as hexamethylenediamine ("**HDA**"). Moreover, the operation of the Group's production facilities requires large amounts of energy, which is primarily procured from external sources and in the form of electricity and steam. The Group endeavours to procure raw materials essential for operations which are difficult for the Group to obtain from external supply sources from within the Group or through joint ventures. Two examples include the in-house production of a portion of the chlorine used by the Group and the procurement of propylene oxide through a joint venture. Operations, logistics, and investment projects require technical goods and services in addition to raw materials and energy. These activities are consolidated by the corporate Group Procurement and Supply Chain & Logistics functions to generate a contribution in line with the Group's strategy.

Sales and Marketing

Industry-specific marketing and sales teams are responsible for developing new business with prospective customers and expanding business relationships with existing customers, as well as for continually analyzing markets and trends. Each business entity engages in sales and marketing activities for its own products through its own sales organization as well as through trading houses and local distributors. Major customers with global operations are an exception to this, as these are serviced directly by the Group's key account managers. All activities are conducted in close cooperation between marketing, sales, and application development teams. At the Group, marketing activities are comprehensively managed by the business entities.

The corporate Supply Chain & Logistics function with its regional hubs in EMLA, NA, and APAC is primarily responsible for customer care and efficient order processing. Supply Chain & Logistics owns the entire process – from order acceptance to factory logistics, and from shipping planning to invoicing and complaints handling.

Real Property and Production Facilities

The Group operates production facilities worldwide and uses land with office buildings, warehouses, research and development facilities, and other facilities in a large number of countries as either owner, holder of hereditary building right or lessee.

Real Property

The Group has economic ownership of a large proportion of its production sites worldwide. Additionally, the Group currently leases and uses real property located at chemical parks in Germany pursuant to lease agreements and land use rights with Bayer Real Estate Group or related companies and other third parties regarding other locations.

The headquarter of the Group is located in Leverkusen, Germany. The headquarters of the Group business entities are located in Leverkusen, Germany (Performance Materials and Coatings & Adhesives), Dormagen, Germany (Specialty Films and Thermoplastic Polyurethanes), Shanghai, China (Engineering Plastics), Pittsburgh, Pennsylvania, United States (Tailored Urethanes) and Romans-sur-Isère, France (Elastomers). The regional headquarters of the Group are located, respectively, in Pittsburgh, Pennsylvania, United States, for North America, Leverkusen, Germany, for Europe and Hong Kong and Shanghai, China, for Asia.

Production Facilities

The Group operates large-capacity production facilities in key locations to ensure efficient and reliable production, and operates smaller-scale facilities in other locations that are dedicated to one business entity or shared between two business entities. A local presence allows customized support and tailor-made solutions for local customers. The main production facilities of the Group are located in: Leverkusen, Krefeld-Uerdingen, Brunsbüttel and Dormagen, Germany; Antwerp, Belgium; Rotterdam, Netherlands; Barcelona and Tarragona, Spain; Filago, Italy; Baytown, New Martinsville, Newark and South Charleston, United States; Map Ta Phut, Thailand, Shanghai, China, and Niihama, Japan.

Many of the Group's sites have an extensive history of industrial operations, storage and related activities and some of the Group's buildings have in the past contained and may still contain asbestos or other harmful substances. As is typical for such businesses, soil and ground water contamination have occurred in the past at some sites such as those in Leverkusen, Dormagen and Krefeld-Uerdingen and may occur or be discovered at the Group's sites in the future. The Group also owns a large number of industrial sites containing, in some cases, pre-existing contamination requiring securing or remediation. The Group has been and is likely in the future to be liable for the costs of investigating and cleaning up or stabilising environmental contamination on or from its properties or at off-site locations where it transported, disposed of or arranged for the disposal or treatment of hazardous materials and waste or from disposal activities that predated its purchase of its businesses. At December 31, 2022, the Group had other provisions of EUR 57 million for environmental protection.

Sustainability

The Issuer is fully committed to integrate sustainability into its business activities, while at the same time ensuring adequate focus on the issues of greatest relevance to it and its stakeholders. The Issuer strives to add value at the social, environmental, and economic levels.

The decisions and actions of the Group take into account three dimensions of sustainability: people, planet and profit. It is the ambition of the Issuer that every decision, every action and the resulting consequences are considered throughout the entire value cycle, from raw materials sourcing to production, and product use to end of life and ultimately being fully circular. Since the fiscal year 2022, the Group has measured its business success partly on the basis of selected environmental criteria. In the year 2022, the direct and indirect GHG emissions, measured in terms of CO₂ equivalents, of the main sites were to this end integrated into the management system. In future, the Group also wants to include social and governance criteria to cover all

three of the environmental, social and governance ("ESG") aspects. This sustainability component – one of a total of four – is relevant for the Covestro Profit Sharing Plan (Covestro PSP), its short-term variable compensation program, which as from the year 2022 applies to all Group employees worldwide, including the Board of Management; any exceptions are essentially due to collective bargaining arrangements.

The following "Sustainability Goals" of the Group cover the entire product life cycle:

- *Sustainable Development Goals of the United Nations ("SDGs")*: The Group will align its research and development ("R&D") projects to address the SDGs. The Group's goal is to devote 80% of its R&D costs by 2025 to projects that contribute to achieving the SDGs - either undertaken in partnership or endorsed by recognized institutions. In 2022, 51% of the Group's R&D project costs met this target.
- *Sustainable suppliers*: The Group promotes "Sustainability in Sourcing" with social, ethical, and environmental standards for existing and new suppliers. The goal of the Group is to have 100% of its suppliers with regular purchasing volumes of more than EUR 1.0 million complying with its sustainability requirements by 2025. During 2022, 80% of relevant suppliers met the Group's sustainability requirements.
- *Climate-neutrality*: The Group aims to reduce its emissions from own production (scope 1) and the emissions from external energy sources (scope 2) to net zero⁴³ by 2035. Based on greenhouse gas emissions of 5.6 million metric tons in 2020, the Group aims to reduce the absolute emissions to achieve a reduction of 60% (to 2.2 million metric tons) by 2030. In 2022, the Group's scope 1 and scope 2 greenhouse gas emissions have declined by ~11.8% (~0.66 million metric tons of CO₂ equivalent). In addition, the Group aims to further reduced indirect greenhouse gas emissions from upstream and downstream processes in the value chain (scope 3). The Group plans to communicate a corresponding reduction target in 2023.
- *Inclusive Business*: The Group has pledged to contribute to improving the living conditions of ten million people in underserved markets, primarily in developing and emerging countries, by 2025. In order to do so, the Group collaborates with customers, governmental and non-governmental organizations to develop affordable solutions based on its technologies and products, and to open up new business models and solutions which are targeted at improving the economic and social situation of these regions. The focus is primarily on affordable housing, sanitation and food security, for which the Group's materials offer significant benefits. In the assessment of the Issuer, the Group's solutions had already reached 5.6 million people by the end of 2022.
- *Circular Economy*: The Group's products are based on carbon. In order to achieve added value from this element, the Group aims to increase its carbon productivity by continually using fewer carbon-based fossil resources, taking a regenerative approach, and closing material loops. The goal is to decouple its value-generating activities from non-renewable and noncircular raw materials such as fossil carbon. The Group aims to collaborate with its partners along the value chain and to involve stakeholders who share its understanding of sustainability in order to develop a universally accepted metric.

In relation to the ambition of climate-neutrality, a key aspect of the Group's revised 2035 reduction target is meeting the goal of the Paris Climate Agreement, under which the world community aims to limit global warming to 1.5 degrees Celsius compared to pre-industrial levels.

The Issuer believes that the following three levers make a vital contribution to achieving the climate targets:

- Production processes will be improved further and energy efficiency enhanced to achieve even more sustainable manufacturing. One focus is on reducing nitrous oxide emissions. The Issuer believes that this will be possible through greater use of innovative catalyst technology. In addition, production plants can be controlled more efficiently due to further digitalization of the facilities and the use of digital technologies, while processes can be optimized using digital simulations. Digital technologies also help collect and track emissions data throughout the value chain.
- In the future, the Group intends to meet all of its energy needs with renewable energy. This includes developing new supply plans and signing purchase contracts for renewable energy, particularly electricity. Alongside existing agreements to procure electricity from renewable sources for its sites in Antwerp (Belgium) and in the German state of North Rhine-Westphalia, the Group entered into additional agreements worldwide. In the fiscal year 2022, the Group purchased around 740 GWh of electricity from renewable sources, making use of special power purchase

⁴³ Achievement of net-zero GHG emissions is defined as a balance between anthropogenic production of GHG emissions (caused by the Group's own production activities and by the provision and use of energy produced outside the Group) and anthropogenic reduction of GHG emissions.

agreements and power certificates (e.g., certificates of origin in Europe). Likewise, this is intended to contribute to shrinking the carbon footprint of production, its products, and its customers' applications.

- Steam is an important energy source for chemical production processes. Converting steam generation from fossil to renewable energy sources is a challenge that the Group intends to solve by various routes. To this end, the Group is looking into the use of biogas and green natural gas as an energy source to generate renewable steam. Hydrogen and ammonia from renewable sources or electricity from renewable sources could also be used as energy source for steam generation.

Investments

The Group bases its investment decisions on the long-term attractiveness and sustainability of the investment. Investments are expected to be above the depreciation level in the next years driven by planned capacity expansions across the Group and sites. Owing to the European energy crisis and a global economy that continues to weaken, the Group has announced on November 7, 2022 to pause the investment project for its new world-scale MDI plant. This also means that the decision on the plant's future location remains open until further notice. The suspension of the world-scale investment does not represent a change in the Group's long-term growth strategy. Especially the Issuer believes that China and Asia-Pacific remain strong key growth markets for the Group in the long turn.

Research and Development

The Group's research and development activities are intended to maintain and strengthen the position of the Group within the industry and focus on product- and process-related innovation development. The Group's research and development activities are driven by underlying demand for higher quality applications, increased functionality, design flexibility, lower cost production processes and sustainability. In addition, the use of renewable non-fossil raw materials is also a key objective in order to drive sustainable growth and reach full circularity in the future. The Group believes that new technologies and the use of alternative raw materials can significantly increase the Group's production efficiency and decrease the environmental impact of industrial operations, which will ultimately strengthen the position of the Group. In addition, the Group believes that digitalization in R&D will be a key innovation enabler that drives effectiveness and efficiency. However, the implementation of these innovations may require a substantial change in the Group's asset setup or, occasionally, investment in new production assets. In addition, the Group's research and development objectives aim to secure future leadership with new product variants in life cycles of new and existing applications that build on the Group's expertise in its core technologies and domains.

The Group has a track record of continuously developing improved fire-resistant products, insulation properties to reduce energy consumption, high flow and lightweight solutions or alternative feedstock, leading to climate neutral products, greater resource efficiency and environmental sustainability for customers. In the past years, amongst many other Group innovations, the Group has successfully launched its very first climate-neutral polycarbonate, partially to fully bio-based polymers for applications such as stoving systems, industrial, architectural and packaging solutions, as well as textiles and consumer goods, an end-to-end coating solution for wind turbine blades, lightweight polycarbonate products for battery modules and automotive headlights and photopolymer films for holographic optical elements.

Employees

In the fiscal year 2022, the Group had on average 18,013 employees. The number of employees on either permanent or temporary contracts is stated in full-time equivalents, with part-time employees included on a pro-rated basis in line with their contractual working hours. The figures do not include employees in vocational training.

Intellectual Property

The Group's global intellectual property strategy aims to protect and enhance the Group's competitive position in the various geographic regions in which it operates. This is achieved by effective portfolio management and legal enforcement of the Group's intellectual property rights, including patents, trademarks, trade secrets, know-how and copyrights. A high priority is placed on protecting innovation and the actual and future business value that the Group can derive therefrom. At the same time the Group consequently protects the reputation of its trademarks by combatting counterfeiting of Group products.

Patents, Trade Secrets and Know-How

The Group owns a large number of patent families worldwide. The patent portfolio is wide-ranging and covers all business activities of the Group. The Group acquires patent rights by exercising its rights to employee inventions and pursuing the grant procedure, by licensing third-party patents or otherwise acquiring third-party intellectual property rights. In addition to patents, the Group possesses confidential know-how and trade secrets.

Trademarks

The Group owns hundreds of active trademark families and thousands of trademark registrations/ applications including both the product marks and the corporate marks ("Covestro" and the company logo). In the future, the Group intends, in general, to register new trademarks in all countries in which significant sales of the relevant product are expected. The Group monitors its trademarks world-wide to ensure continuous and solid trademark protection.

Licenses

The Group has a multitude of active licensing agreements with third parties under which it obtains or grants licenses. Licensing agreements may be concluded to provide for freedom of operations, to enhance acceptance of a new technology in the industry, make sustainability solutions available, enable cooperative ventures, or provide for sales.

The Group has entered into cross-license agreements or non-assertion agreements with some key competitors which cover selected patents and patent applications. Pursuant to these agreements, the contractual parties are allowed to use patents of the counterparty in the fields covered by the respective cross-license agreement.

In addition to cross-license agreements, the Group has granted to and has been granted from competitors or other third parties one-way licenses in certain fields for which the Group receives or pays license fees.

Apart from the intellectual property rights mentioned above, and not taking into consideration Covestro AG's information technology systems, the Group does not hold any significant intellectual property rights and does not depend on patents or licensed materials in order to conduct its business.

Litigation

The Group is, and may become involved, in legal proceedings during the ordinary course of its business activities, both as a plaintiff and as a defendant.

Covestro AG and its subsidiaries are not, and have not been in the twelve months prior to the date of this Base Prospectus, subject to any governmental, legal or arbitration proceedings, including any such proceedings which are pending or threatened of which Covestro AG or the Group is aware, which may have, or have had in the recent past significant effects on Covestro AG and/or the Group's financial position or profitability, except for the following:

Carbon monoxide pipeline from Dormagen to Krefeld-Uerdingen

The carbon monoxide pipeline is intended to connect the chemical production sites at Dormagen and Krefeld-Uerdingen and complement the network already existing between Dormagen and Leverkusen. The aim is to ensure a safe and reliable supply of carbon monoxide to and across all sites. Although the pipeline was almost completed by the end of 2009, it cannot currently be put into operation because of ongoing court proceedings. Following confirmation by the Düsseldorf Administrative Court in 2011 that there were no grounds to challenge the material aspects of the planning permission decision, in particular the safety of the materials used and the legal conformity of the relevant pipeline act (*Rohrleitungsgesetz*), the plaintiffs and the regional government against which legal proceedings had been instituted lodged appeals before the Higher Administrative Court in Münster. In 2014, the Münster Higher Administrative Court raised no objections in principle to the safety and routing of the pipeline, but questioned the constitutionality of the pipeline act which forms the legal basis for the project. On December 21, 2016, the German Federal Constitutional Court dismissed the corresponding constitutionality question referred to it by the Münster Higher Administrative Court as inadmissible and confirmed the legal opinion of the Group. Subsequently, the Münster Higher Administrative Court again considered the facts of the appeal and, in a decision handed down on August 31, 2020, dismissed the actions against the planning permission decision. The Münster Higher Administrative Court did not permit an appeal against its decision. On December 14, 2021, the Federal Administrative Court dismissed the complaint (*Nichtzulassungsbeschwerde*) against the judgement of the Higher Administrative Court lodged by the plaintiffs in February 2021. Consequently, the judgement of the Higher Administrative Court, i.e., that the planning approval for the construction and operation of the carbon monoxide pipeline fulfils all legal requirements, became final. Seven lawsuits from private plaintiffs, municipalities and a nature conservation association against the planning approval were still pending at and suspended by the Düsseldorf Administrative Court until recently. These proceedings are subsequently resumed by the Düsseldorf Administrative Court in light of the final Higher Administrative Court ruling. Two lawsuits from private plaintiffs were now dismissed by the Düsseldorf Administrative Court on February 28, 2023. An appeal is possible.

Civil class action lawsuits over diisocyanates (United States)

On July 9, 2018, Covestro LLC, Pittsburgh (United States) - as one of numerous other defendants - was served the first of now 12 class action lawsuits initiated by various U.S. MDI and TDI customers. The plaintiffs allege that the defendants have violated various provisions of the Sherman Antitrust Act since January 1, 2015, by acting in coordination to limit production

capacities of MDI and TDI and, at the same time, raising prices for these products in the market. On October 3, 2018, the U.S. Judicial Panel on Multidistrict Litigation ruled that all class action lawsuits in pretrial proceedings would be centralized in the District Court for the Western District of Pennsylvania. Discovery in this case is proceeding. Based in essence on the same assertions and the violations of federal consumer protection and antitrust laws allegedly resulting from them, the attorney general of the state of Mississippi filed a separate civil complaint against Covestro LLC and numerous other defendants on behalf of the state and its citizens in September 2019. The matter was voluntarily dismissed without prejudice on November 25, 2020. In conjunction with this dismissal the parties executed a tolling agreement on November 24, 2020, which expired on November 24, 2022. The Group currently considers these claims to be without merit and will therefore use all legal means to defend itself against these allegations - also in light of the official conclusion in November 2018 of the six-month investigation by the U.S. Department of Justice into possible anticompetitive practices in relation to MDI. Discovery in the case is proceeding.

Civil class action complaint seeking medical monitoring (United States)

On February 23, 2021, Covestro LLC, Pittsburgh (United States) - as one of numerous other defendants - was served with a class action complaint seeking medical monitoring for purported class members who are identified as those living in certain census tracts near the South Charleston, West Virginia, site for a period of one year or more during the period from 1978 to present. The complaint alleges that the defendants as owners/operators at the South Charleston, West Virginia, site released ethylene oxide gas into the atmosphere beginning in 1978 to present (the dates pertaining to Covestro are alleged to be from 2000 to present). Covestro will use all legal means to defend itself against these allegations.

Insurance

The Group believes that Covestro AG and its subsidiaries have reasonable insurance protection, to the extent customary in the industry.

Material Agreements

The following section provides a summary of material agreements to which any member of the Group is a party.

Financing Agreements

Facilities Agreement

On March 17, 2020, Covestro AG entered into a facilities agreement (the "**Facilities Agreement**") with a syndicate of lending banks.

Subsidiaries in which Covestro AG holds directly or indirectly more than 50% of the voting capital may become additional borrowers by means of accession to the contract (*Vertragsbeitritt*), provided that all lenders have consented to such accession; Covestro AG provides a guarantee for the obligations of the additional borrowers. The base currency under the Facilities Agreement is Euro. The Facilities Agreement provides for a multicurrency revolving credit facility in an amount of EUR 2.5 billion.

The Facilities Agreement contains customary representations, general covenants (including a negative pledge undertaking and restrictions on disposals and mergers, each subject to baskets and/or exceptions) and events of default (including cross-default-payment and cross-acceleration provisions). No financial covenants are included. The facilities are not secured by any security in rem.

The revolving credit facility is due on March 16, 2027. The revolving credit facility may be used for general corporate purposes, including working capital purposes, the refinancing of indebtedness and acquisitions. Up to EUR 500 million of the revolving credit commitments may be used as ancillary facilities on a bilateral basis with revolving lenders or their affiliates in the form of overdraft facilities, guarantees, bonding, documentary or stand-by letters of credit facilities, short term loan facilities, derivatives facilities, foreign exchange facilities or any other facility or accommodation required in connection with the business of the Group and which is agreed by Covestro AG with an ancillary lender.

Voluntary prepayments by the borrower are permitted subject to certain customary requirements. A lender may cancel its commitments and demand prepayment of all its participations in any loans outstanding under the Facilities Agreement in case of illegality or a change of control (in each case as described in the Facilities Agreement).

Notes issuances

In March 2016, Covestro AG issued its first bonds under this Programme with a total volume of EUR 1.5 billion. The bonds comprise a fixed-rate series due in September 2024 (with a coupon of 1.75% and a volume of EUR 500 million). A second

fixed-rate series with a volume of EUR 500 million due in October 2021 was repaid in July 2021 and a third, floating rate, series with a volume of EUR 500 million was repaid in March 2018.

In June 2020, Covestro AG issued bonds under this Programme with a total volume of EUR 1 billion. The bonds comprise two fixed-rate series due in February 2026 (with a coupon of 0.875 per cent. and a volume of EUR 500 million) and June 2030 (with a coupon of 1.375 per cent. and a volume of EUR 500 million), respectively.

In November 2022, Covestro AG issued a green bond under this Programme with a total volume of EUR 500 million. The fixed-rate bond is due in November 2028 (with a coupon of 4.75 per cent. and a volume of EUR 500 million). The net proceeds from this issuance of the Notes are intended to finance and/or refinance, new or existing projects (assets, capital expenditures, operational expenditures including R&D) that meet the eligibility criteria, as further specified in the Issuer's Green Financing Framework.

Commercial Paper Program

In August 2022, Covestro AG established a euro commercial paper program with a volume of up to EUR 1.5 billion (or its equivalent in other currencies). Under the program the Issuer may, from time to time, issue senior notes denominated in various currencies with a maturity of no more than 364 days. As of December 31, 2022, no notes were outstanding under the euro commercial paper program.

Schuldschein loan (promissory notes)

On October 7, 2022, Covestro AG signed Schuldschein loans with a broader group of investors in the total amount of around EUR 650 Million equivalent. The instrument is denominated in euros and U.S. dollars. It was issued in tranches comprising fixed and variable interest-rates with terms of three, five and seven years.

Other

On March 20, 2020, the Issuer signed a loan with the European Investment Bank (EIB) for EUR 225 million. The loan will provide medium-term funding with the goal to strengthen the research and development (R&D) work of Covestro AG in the areas of sustainability and circular economy within the European Union.

In addition, the Group has uncommitted external central and local financing agreements in place.

On December 31, 2022, the Group had presented warranties and other contingent liabilities in the amount of EUR 12 million and other financial commitments in the amount of EUR 421 million.

Joint Venture Agreements

The Group has entered into a large number of joint venture agreements with partners to support its business in various areas. The most important joint ventures are described below:

Lyondell European Joint Venture

In December 2000, Covestro AG's affiliate Covestro Polyurethanes B.V. (formerly Bayer Polyurethanes B.V.), a Dutch private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid*), and LyondellBasell's affiliate Lyondell PO-11 C.V., a Dutch limited partnership (*commanditaire vennootschap*), established a long-term manufacturing joint venture now called LyondellBasell Covestro Manufacturing Maasvlakte VOF ("**Lyondell European Joint Venture**") in the legal form of a Dutch general partnership (*vennootschap onder firma*) with its seat in Rotterdam, The Netherlands. Lyondell PO-11 C.V. and Covestro Polyurethanes B.V. are the only partners of the Lyondell European Joint Venture (each a "**Partner**" and jointly the "**Partners**"). The Lyondell European Joint Venture owns a grassroots propylene oxide and styrene monomer plant near Rotterdam, The Netherlands, employing proprietary technology of one of LyondellBasell's affiliates which is licensed to the Partners. Its business comprises the production of propylene oxide and a styrene monomer for the account of the Partners. Each Partner holds a 50% interest in the Lyondell European Joint Venture and corresponding percentage of voting rights, participates in 50% of its profits and losses and is entitled to offtake 50% of the propylene oxide and styrene monomer produced.

The general partnership agreement generally prohibits Covestro Polyurethanes B.V. from transferring its interest in the Lyondell European Joint Venture without the consent of Lyondell PO-11 C.V., subject to certain exceptions. In this context, Bayer AG and LyondellBasell's affiliate Lyondell Chemical Company entered into an agreement which governs the relationship of the parent companies of the Partners with regard to the Lyondell European Joint Venture and which contains certain transfer restrictions regarding the direct or indirect transfer of interests in the Partners.

Pursuant to a consent and release agreement dated August 28, 2015, between Bayer AG, Covestro AG, Lyondell Chemical Company as well as certain affiliates of Bayer AG and Lyondell Chemical Company (the "**Consent Agreement**"), Lyondell Chemical Company and certain of its respective affiliates consented to certain transactions in connection with the Separation and certain transactions subsequent to the Separation. On August 31, 2015, Covestro AG acceded to the Consent Agreement.

Lyondell US Joint Venture and Lyondell Technology Joint Venture

Covestro AG's affiliate, Covestro PO LLC (formerly BAYPO Limited Partnership), a Delaware limited partnership, and LyondellBasell's affiliate, PO Offtake LP, a Delaware limited partnership, established in March 2000 PO JV, LP, a Delaware limited partnership (the "**Lyondell US Joint Venture**"), as a long-term joint venture for the production and offtake of propylene oxide with manufacturing facilities located in Texas, United States. Covestro AG's indirect interest of approximately 39.4% in the Lyondell US Joint Venture represents ownership of an in kind portion of the propylene oxide production of the Lyondell US Joint Venture. LyondellBasell indirectly holds the remaining interest of approximately 60.6% in the Lyondell US Joint Venture.

Simultaneously with the establishment of the Lyondell US Joint Venture, Bayer AG's affiliate, BIPPO Corporation, a Delaware corporation, and LyondellBasell's affiliates, Lyondell POTechGP, Inc. and Lyondell POTechLP, Inc., both Delaware corporations, established in March 2000 Technology JV, LP, a Delaware limited partnership (the "**Lyondell Technology Joint Venture**"), as a long-term joint venture for the joint development and licensing of technology relating to the production process of propylene oxide under the Lyondell US Joint Venture. Covestro AG holds an indirect 50% interest with LyondellBasell indirectly holding the remaining 50% interest of the Lyondell Technology Joint Venture.

Covestro PO LLC is generally prohibited from transferring its ownership interests in the Lyondell US Joint Venture and the Lyondell Technology Joint Venture or withdrawing from either joint venture without the consent of LyondellBasell's affiliate for the respective joint venture except under certain circumstances. In the context of the establishment of the Lyondell US Joint Venture and the Lyondell Technology Joint Venture, Bayer AG, Bayer Corporation and LyondellBasell's affiliate Lyondell Chemical Company agreed to transfer restrictions regarding the direct and indirect transfer of interests in the entities party to the Lyondell US Joint Venture and the Lyondell Technology Joint Venture.

Pursuant to the Consent Agreement, Lyondell Chemical Company and certain of its affiliates consented to certain transfers of interests and assignments of agreements related to the Lyondell European Joint Venture, the Lyondell US Joint Venture and the Lyondell Technology Joint Venture. In particular, Lyondell Chemical Company consented to the transfer of interests in Covestro Polyurethanes B.V. and Covestro PO LLC in connection with the Separation. Additional consent is needed in the event of a sale or disposal of shares in Covestro AG subsequent to Separation by the Bayer Group or Covestro AG in certain limited circumstances. Pursuant to the Consent Agreement, the LyondellBasell affiliates may request certain changes to the payment terms of the agreements concluded in connection with the Lyondell European Joint Venture, the Lyondell US Joint Venture and the Lyondell Technology Joint Venture in case of a significant change in the rating of Covestro AG and if certain other requirements are fulfilled. By acceding to the Consent Agreement, Covestro AG has assumed the existing guarantees for performance of certain affiliates under certain agreements connected with the Lyondell European Joint Venture, the Lyondell US Joint Venture and the Lyondell Technology Joint Venture.

Agreements with the Bayer Group

As a previously wholly owned subsidiary of Bayer AG, the Group has and, in the past, had various relationships with the Bayer Group and its direct and indirect subsidiaries and will continue to have - modified and reduced - relationships with Bayer Group in the future. In particular, the Group received for a transitional period certain services relating to human resources, real estate, IT, intellectual property, legal, compliance, procurement, trade and customs compliance, treasury and other areas and was part of the cash management system and global insurance cover from the Bayer Group until the Group built up its own resources for these areas.

Master Agreement between Covestro Deutschland AG and Bayer AG

Bayer AG and Covestro Deutschland AG entered into a master agreement (the "**Master Agreement**"), dated August 24, 2015. Pursuant to this Master Agreement, both parties intend, among other things, to conclusively determine the apportionment of liability as between Covestro Deutschland AG and the Bayer Group, in particular in the areas of environmental contamination, product liability, violations of the law and employment, and establish certain reciprocal rules of conduct and duties of cooperation for the period following the Separation. The Master Agreement also contains provisions with regard to release of securities, IT resources and data as well as subsidies, and treatment of confidential information and personal data. In a later and separate agreement with Bayer AG, Covestro AG has undertaken the obligation to ensure that Covestro Deutschland AG as well as other companies of the Group will adhere to the provisions of the Master Agreement as amended from time to time.

Purchase Agreement regarding pension liabilities between Bayer AG and Covestro AG

In the context of the restructuring of Bayer AG's activities in 2003 into the three subgroups Bayer HealthCare, Bayer CropScience and Bayer MaterialScience, Bayer AG and Bayer Polymers Aktiengesellschaft (renamed to Bayer MaterialScience Aktiengesellschaft and as of September 1, 2015 Covestro Deutschland AG) entered on March 11, 2003 into a hive-down and transfer agreement (*Ausgliederungs- und Übernahmevertrag*). According to this hive-down and transfer agreement, pension liabilities of certain employees attributable to the Polymers activities were transferred to Covestro Deutschland AG. Pension liabilities with respect to employees whose employment contracts terminated prior to July 1, 2002 were not transferred to Covestro Deutschland AG and remained with Bayer AG, but Covestro Deutschland AG assumed the obligation to reimburse payments to be made in this context by Bayer AG ("**Reimbursement Claims**").

On August 28, 2015, Bayer AG and Covestro Deutschland AG entered into a purchase agreement pursuant to which Covestro Deutschland AG purchased the Reimbursement Claims from Bayer AG for an amount of EUR 216,646,281.

If and to the extent that Covestro Deutschland AG should realize certain tax benefits due to the fact that the competent tax authorities deviate from the joint understanding of Bayer AG and Covestro Deutschland AG with respect to the tax treatment of the purchase of the Reimbursement Claims, Covestro Deutschland AG shall pay on an after-tax basis the net present value of such tax benefits to Bayer AG. In such case, the parties have agreed on principles regarding the calculation of the net present value of such tax benefits and on a payment mechanism in instalments.

Intellectual Property Rights

Covestro Deutschland AG and Bayer AG have entered into agreements with regard to patents, utility models, registered designs, trademarks and domains.

Control Termination Agreement between Bayer AG and Covestro AG

Bayer AG and Covestro AG concluded a control termination agreement with effect as of September 30, 2017, as part of which Bayer AG undertook to refrain from exercising certain voting rights at the Covestro Annual Stockholders' Meeting. The agreement ensured that there was no longer a requirement to fully consolidate the Group in Bayer AG's consolidated financial statements.

Real Estate Purchase Agreements between real estate companies of the Group and real estate companies of the Bayer Group

Due to the exertion of certain contractual repurchase rights reserved by the Bayer Group in the underlying carve-out agreements on January 19, 2018 and pursuant to five notarized real estate purchase agreements dated September 13, 2018, pre-defined infrastructure property at the chemical sites in Leverkusen, Dormagen and Krefeld-Uerdingen was sold and transferred based upon pre-formulated agreements from the two real estate companies of the Group to Bayer Real Estate GmbH. The properties were sold together with all rights and significant fixtures related thereto and any appurtenances relating to the relevant parcels as well as operating equipment belonging to the parcels and buildings, to the extent that the sellers own these items. The properties were sold subject to a disclaimer of liability by the sellers with respect to the size, quality and features of the infrastructure property. Specifically, the sellers disclaim any liability for any latent or hidden qualitative defects. Possession, use and risk and encumbrances, as well as general duties to maintain safety in any respect on the property, were transferred on December 1, 2018. The conveyance of title in performance of the agreements will be made as soon as the relevant land register requirements are met. Environmental liability remains split between the Group and the Bayer Group as outlined in the Master Agreement.

Agreement on the inclusion of a further guarantor in the complemented foundation stock

Covestro AG, Rheinische Pensionskasse VVaG ("**RPK**") and Bayer AG concluded an agreement on the inclusion of Covestro AG as further guarantor in addition to Bayer AG in the complemented foundation stock of the RPK with effect as of August 1, 2019. In accordance with said agreement, Covestro AG provides an interest-bearing framework loan of up to EUR 11 million for the complemented foundation stock in order to support the long-term risk-bearing capacity of the RPK, particularly to ensure that it can meet its obligations arising from insurance policies on a permanent basis as well as its solvency requirements in the long term. The amount of the framework loan for the complemented foundation stock corresponds to the share of the pension fund's benefit obligations (pro rata actuarial reserve) to the employees/beneficiaries assigned to Covestro in the total obligation (actuarial reserve) of the pension fund, calculated by an actuary in accordance with actuarial principles.

Pension Schemes

The Group provides retirement benefits for most of its employees in various countries, either directly or by contributing to privately or publicly administered funds or other institutions. The way these benefits are provided varies according to the legal,

fiscal and economic conditions of each country, with benefits generally being based on employee compensation and years of service. The obligations of the Group relate both to existing retirees' pensions and to pension entitlements of future retirees. In Germany, there are three main pension systems in place, two closed pension systems (oldest system until December 31, 2004 and its succeeding plan between January 1, 2005 and December 31, 2020) and one newly launched system being open for new entrants since January 1, 2021 ("**Pensionsplan2021**"). The first and oldest pension system for entries until December 31, 2004 was made up of a three-layer arrangement, (i) the basic pension (*Grundrente Bayer Pensionskasse*) provided by Bayer-Pensionskasse VVaG, (ii) the additional pension (*Zusatzrente*) based on a direct pension promise and (iii) the third pension provision layer (*Dritte Versorgungsstufe*) based on a direct pension promise. The third pension provision layer offers matching components (voluntary employee contributions and corresponding employer matching contributions). The second pension system consists of two layers and provides pension entitlements for persons who joined the Bayer/Covestro Group in Germany on or after January 1, 2005. The basic pension is granted via RPK and employees and employer both contribute a certain percentage of the base salary. Future pension payments from this plan are based on contributions and the return on plan assets, and a guaranteed interest rate applies. Above the social security contribution ceiling (West) for the statutory pension insurance plan, the pension system is supplemented by a further direct pension promise with matching components (voluntary employee contributions and corresponding employer matching contributions).

Pensionsplan2021 has been established for new employees since January 1, 2021. RPK members (second pension system) have been offered to switch to the Pensionsplan2021. Similar to the second pension system, employees and employer contribute a certain percentage of the base salary and, for salaries above the social security contribution ceiling (West) for the statutory pension insurance plan, the pension system is supplemented by a further direct pension promise with matching components. The financing way is a direct pension promise with an Contractual Trust Agreement ("**CTA**"). Normally, the Pensionplan2021 is fully funded via the CTA and no accruals have to be shown in the IFRS balance sheet.

As of December 31, 2022, the present value of the Group's pension and other post-employment benefits obligations (defined benefit obligations) was EUR 3,545 million and the fair value of the plan assets was EUR 3,130 million with a net defined benefit liability of EUR 430 million. Germany is the country with the highest defined benefit obligation. Currently, certain direct German pension liabilities (e.g. for certain parts of employees' retirement income, deferred compensation etc.) are partially funded within a group CTA managed by Metzler Trust e.V.

Covestro Deutschland AG has outsourced the administration of company pension schemes. The main service providers are Lohoff GmbH and Bayer AG. Covestro Deutschland AG has concluded service agreements with both of them for the administration of company pension plans. Pursuant to those agreements, Lohoff GmbH and Bayer AG will provide support services such as, assisting pensioners, processing of compensation payments and providing consulting on pension schemes and on the statutory pension insurance. The annual actuarial valuation is being performed by Aon Solutions Germany GmbH.

However according to Section 7 paragraph 1 of the articles of incorporation, certain types of business undertaken by the Board of Management require the prior approval of the Supervisory Board. The Supervisory Board is authorized to determine which types of business are subject to such restriction.

Applicable Corporate Governance Rules

The German Corporate Governance Code (*Deutscher Corporate Governance Kodex*) (the "**Code**"), as adopted in February 2002 and last amended on April 28, 2022, includes recommendations and suggestions for managing and supervising companies listed on German stock exchanges with regard to shareholders and shareholders' meetings, management and supervisory

boards, transparency, accounting and the auditing of financial statements. While the recommendations or suggestions of the Code are not mandatory, the German Stock Corporation Act (*Aktiengesetz*) requires the management and supervisory boards of a listed company to disclose each year with the annual declaration of conformity which recommendations were not or will not be followed and to explain the reasons for the non-compliance (comply or explain). This disclosure must be made publicly accessible. However, deviations from the suggestions contained in the Code need not be disclosed.

The recent amendments of the Code in its current version concern:

- Principles and recommendations for the consideration of environmental and social sustainability in the management and supervision of listed companies.
- Principles and recommendations to be adapted to recent amendments to the German Stock Corporation Act by the Act on Strengthening Financial Market Integrity (*Gesetz zur Stärkung der Finanzmarktintegrität*, FISG) and the Second Leadership Position Act (FüPoG II).

As of the date of the Base Prospectus, Covestro AG complies with all recommendations of the Code.

Supervisory Board

The Supervisory Board consists of 12 members (six shareholder representatives and six employee representatives). The shareholder representatives are elected by the shareholders at the general shareholders' meeting.

The Supervisory Board has formed the following committees from among its members:

Presidial Committee	Nomination Committee	Audit Committee	Human Resources Committee	Sustainability Committee

Presidial Committee

The Presidial Committee comprises the Chair and Vice Chair of the Supervisory Board along with a further shareholder representative and a further employee representative. The Presidial Committee serves primarily as the mediation committee pursuant to the German Codetermination Act. It has the task of submitting proposals to the Supervisory Board on the appointment of members of the Board of Management if the necessary two-thirds majority is not achieved in the first vote at a plenary meeting. Certain decision-making powers in connection with capital measures, including the power to amend the articles of incorporation, have also been delegated to this committee.

Nomination Committee

The Nominations Committee carries out preparatory work when an election of shareholder representatives to the Supervisory Board is to be held. It suggests suitable candidates for the Supervisory Board to propose to the Annual General Meeting for election. The Nominations Committee is composed of three members, namely the Chairperson of the Supervisory Board as committee chairperson, the other shareholders' representative in the Presidial Committee of the Supervisory Board and an elected further shareholders' representative.

Audit Committee

The Audit Committee comprises three shareholder representatives and three employee representatives. The Audit Committee meets regularly four times a year. It monitors the accounting process and is responsible for examining the financial statements, consolidated financial statements and management reports and for discussing the quarterly and half-yearly reporting with the Board of Management. On the basis of the auditor's report, the Audit Committee develops proposals for resolutions by the Supervisory Board relating to the confirmation of the financial statements, the approval of the consolidated financial statements and the use of the distributable profit. The Audit Committee is also responsible for the company's relationship with the external auditor. It submits a proposal to the full Supervisory Board concerning the auditor's appointment and is authorized to award the audit contract to the audit firm appointed on behalf of the Supervisory Board and to agree the auditor's remuneration. It also suggests areas of focus for the audit and monitors the quality of the audit as well as the independence and qualifications of the auditor. In addition, the Audit Committee monitors the effectiveness of the internal control system, the risk management system, the internal audit system and the compliance function.

Human Resources Committee

On this committee, too, there is parity of representation between shareholders and employees. It consists of the Chair of the Supervisory Board and three other members. The Human Resources Committee prepares the personnel decisions of the full Supervisory Board, which resolves on appointments or dismissals of members of the Board of Management. The Human Resources Committee resolves on behalf of the Supervisory Board on the service contracts of the members of the Board of Management. However, it is the task of the full Supervisory Board, based on the recommendations submitted by the Human Resources Committee, to resolve on the total compensation of the individual members of the Board of Management and the respective compensation components, as well as to regularly review the compensation system. The Human Resources Committee also discusses the long-term succession planning for the Board of Management.

Sustainability Committee

The Sustainability Committee was newly established in August 2021. It is comprised of four members with an equal number of shareholder and employee representatives. The Sustainability Committee advises the Supervisory Board, some committees as well as the Board of Management in particular on issues of sustainable corporate governance and the activities of the company in the areas of environment, social and good corporate governance (environment, social, governance; ESG). It accompanies and monitors respective strategies, objectives and initiatives of the Board of Management, including the environmental, social, ethical and circular-economy-related aspects of corporate activity along the entire value chain and makes recommendations in this regard. The Sustainability Committee supports the Audit Committee in the preliminary review of sustainability-related statements as part of the audit of the non-financial (Group) statement or the separate non-financial (Group) report. It also advises the Human Resources Committee in preparing the setting of ESG targets for the remuneration of the Board of Management.

Alternative Performance Measures and Green House Gas Emissions

The Issuer has provided certain alternative performance measures ("APMs") and Green House Gas Emissions in this Base Prospectus because it believes they provide investors with additional information to assess the economic situation of the Group's business activities.

The Issuer uses APMs to assess the business performance of the Group. These APMs are not defined in IFRS. They should be considered as supplement to, not a replacement for, the performance measures determined in accordance with IFRS. The

calculation methods and reconciliation of the non-IFRS earnings APMs to the figures reported in the financial statements are presented below. The calculation methods for the APMs may vary from those of other companies, thus limiting the extent of the overall comparability. These alternative performance measures should not be viewed in isolation or employed as an alternative to the financial indicators determined in accordance with IFRS and presented in the consolidated financial statements for purposes of assessing the Group's net assets, financial position and results of operations.

The following are the APMs relevant to the Group:

- EBITDA
- Return on capital employed (ROCE)
- Free operating cash flow (FOCF)
- Net financial debt

The Issuer uses return on capital employed (ROCE) above WACC to assess profitability, it measures the amount by which the return on the Issuer's capital employed exceeds the weighted average cost of capital. EBITDA is calculated to assess profitable growth. Free operating cash flow (FOCF) is an indicator of the liquidity and ability to finance its activities. Net financial debt gauges the Group's financial condition and financing requirements.

EBIT and EBITDA

EBITDA is EBIT plus amortization and impairment losses on intangible assets, and depreciation and impairment losses on property, plant and equipment, less impairment loss reversals.

EBIT is a measure used in the calculation of EBITDA. EBIT represents the income after income taxes plus financial result and income tax expense. It allows to assess income without the influence of the income-dependent tax liability and/or various financing activities.

Financial year ended December 31,*(amounts in EUR million)***2022****2021***(audited)***EBITDA****1,617****3,085****Return on Capital Employed (ROCE)**

The Issuer uses return on capital employed ("ROCE") above the weighted average cost of capital ("WACC") value-based management metric. ROCE measures profitability and is calculated as the ratio of EBIT after taxes ("NOPAT" = net operating profit after taxes) to the average capital employed. If ROCE exceeds the weighted average cost of capital, the company is earning a premium on its cost of capital.

Calculation of average capital employed

The capital employed is the interest-bearing capital required by the company for its operations. It is calculated from operating noncurrent and current assets less non-interest-bearing liabilities. Non-interest-bearing liabilities include, for example, trade accounts payable and current provisions. The average capital employed is determined using the capital employed at the beginning and end of the relevant period.

Calculation of weighted average cost of capital

WACC reflects the expected return on the company's capital comprising both equity and debt. The cost of equity factors used in WACC is calculated by adding the risk-free interest rate to the risk premium for an equity investment. The Group uses the

returns on long-term German government bonds as the risk-free interest rate. Covestro AG derives this risk premium from capital market information for comparable listed companies.

The cost of debt factors is calculated by adding the risk-free interest rate to a risk premium on debt capital that the Issuer calculates using the financing costs of comparable companies, subtracting the tax benefit arising from the legal deductibility of interest incurred on borrowed capital. Calculation of the cost of capital generally has a long-term perspective; short-term fluctuations are evened out. WACC is calculated at the end of the fiscal year for the subsequent fiscal year on the basis of historical capital market data. The WACC for the Group was 7.0% in the fiscal year 2022.

Calculation of the net operating profit after taxes ("NOPAT")

NOPAT is the operating result after taxes. Taxes are determined by multiplying the effective tax rate by EBIT.

(1) An imputed tax rate of 25% has been used since the year 2022 (previous year: effective tax rate). If the effective tax rate of 316.2% had been used, imputed income taxes would have amounted to EUR 844 million for the year 2022, resulting in net operating profit (NOPAT) of EUR (577) million. ROCE would consequently have amounted to (5.9)% and ROCE above WACC would have been (12.9)% points.

(3) The effective tax rate (applied to the previous year) is presented in note 11 "Taxes" to the audited consolidated financial statements as of December 31, 2022 of the Issuer.

(4) The imputed income taxes used in the calculation of NOPAT are determined by multiplying EBIT by the imputed tax rate.

Greenhouse Gas Emissions

Covestro calculates greenhouse gas emissions according to the internationally recognized standards of the GHG Protocol. Direct emissions, e.g., from burning fossil energy sources and from the Group's production processes (Scope 1), as well as indirect emissions from the provision and use of energy produced outside the Group (Scope 2) at all environmentally relevant facilities, i.e., all production facilities and relevant administrative facilities with a significant impact on the environment, are included in the calculations. In addition to CO₂, Scope 1 emissions comprise all relevant greenhouse gases, including nitrous oxide (N₂O), methane (CH₄), partly fluorinated hydrocarbons and sulfur hexafluoride (SF₆).

Scope 2 emissions are reported using the location-based and market-based methods. Market-based emissions factors were mostly used when calculating specific Scope 2 greenhouse gas emissions; wherever these were not available, the calculation was based on location-based emissions factors from a generally accepted source (e.g., International Energy Agency (IEA), "IEA Emission Factors 2022" document. GENERAL INFORMATION

Supplements to this Base Prospectus

The Issuer has undertaken, unless it is not intended to issue Notes under the Programme for the time being, that if at any time during the duration of the Programme, if there is a significant new factor, material mistake or inaccuracy relating to information contained in this Base Prospectus which is capable of affecting the assessment of any investment in the Notes and whose inclusion in or removal from this Base Prospectus is necessary for the purpose of allowing an investor to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and the Group and the rights attaching to the Notes, to prepare or procure the preparation of a supplement to this Base Prospectus or, as the case may be, publish a replacement Base Prospectus for use in connection with any subsequent offering of Notes.

If at any time the Issuer shall be required to prepare a prospectus supplement pursuant to Article 23 of the Prospectus Regulation, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus.

If the Terms and Conditions (as set out in the Base Prospectus) are modified or amended in a manner which would make the Base Prospectus, supplemented, inaccurate or misleading, a new prospectus will be prepared to the extent required by law.

Interests of the Dealers

Certain of the Dealers and their affiliates may be customers of, borrowers from or creditors of the Group and its affiliates. In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Group and its affiliates in the ordinary course of business. Furthermore, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions, which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Interests of persons involved in a specific issue of Notes under the Programme will be set out in the relevant Final Terms.
